Proceedings of the Hon'ble the Lieutenant-Governor of the Punjab in the Boards and Committees (Committees) Department, No. 580, dated 10th December 1901.

READ—

The Divisional Reports of Municipal Administration and Accounts for the year 1900-01.

REMARKS—

PART I.—CONSTITUTION, &C., OF COMMITTEES.

1. *Establishment and abolition of Municipalities and Notified Areas.*—In the Delhi Division the towns of Mahrauli and Najafgarh in the Delhi District were constituted Notified Areas with effect from April 1st, 1901. The Municipalities of Attock and Hazro were transferred along with the Attock Tahsíl from the Ráwalpindi to the Pesháwar Division. Their subsequent re-transfer to the Ráwalpindi Division occurred after the end of the year under review. No changes took place in the remaining Divisions.

2. *Revision of boundaries.*—In the Delhi Division the octroi limits of the Rohtak Municipality were revised. In the Jullundur Division a slight alteration was made in the boundaries and octroi limits of the Municipality of Una in the Hoshiárpur District. The only revision in the Ráwalpindi Division was that of the octroi limits of the Khusháb Municipality in the Shahpur District.

3. *Changes in the system of appointing members.*—No change occurred in the Province throughout the year under report except that, in the Delhi Division, the Municipality of Bahádurgarh in the Rohtak District was divided into wards for purposes of election.

4. *Elections and appointments to the memberships of Committees.*—There were 28 elective vacancies, or 10 less than last year. The percentage of contested elections has decreased from 33·55 last year to 26·60, while the percentage of voters polling has increased from 40·54 to 62·88. The highest percentages of voters polling are shown, as is perhaps natural, by the smaller Municipalities, Daska in the Siálkot District, Dasúya in Hoshiárpur and Máchiwára in Ludhiána heading the list with percentages of 84, 83·23 and 82·57 respectively.

The omission to hold elections during the year in Ferozepore was apparently due to the Tahsíldár misunderstanding the orders of the Deputy Commissioner as to the preparation of voters' certificates. The point should be separately reported upon by the Commissioner of the Jullundur Division. The explanation given of the similar omission in Mooltan is insufficient and should be supplemented by the Commissioner of the Lahore Division.

5. *Proportion between ex-officio and nominated members on the one hand and elected members on the other.*—The proportion of two elected members for each member appointed by name or official designation is generally preserved. The abnormal condition of the Municipal Committee of Núrpur in the Kángra District, where there are only 3 elected members in a Committee of 9, is due to the fact that 8 elective seats had to be filled by appointment, no candidates for election having come forward. The 3 nominative vacancies mentioned in last year's report as having been held over in Hoshiárpur are still unfilled, and the Committee still consists of 10 elected and 7 appointed members. The disproportion noticed last year in the Wazirabad Municipality of the Gujránwála District has been reduced by the election of a member to fill a seat forfeited in November 1900.

6. *Meetings of Committees and attendance at meetings.*—The Municipalities of Simla, Delhi and Ambala held 59, 56 and 54 meetings respectively. Edwardes-abad, in the Bannu District, stands next with 30 meetings, followed by Mooltan and Pasrúr in the Siálkot District with 27 each. Forty-five out of 148 Municipal Committees failed to hold the prescribed minimum number of meetings, namely 12. Sixteen out of the 45 were in the Lahore Division. The lowest number of meetings held was 4 in Montgomery and Kila Didár Singh in the Gujránwála District. None of the 3 Minor Municipalities of the Amritsar District and only 1 out of the 6 Minor Municipalities of the Lahore District succeeded in reaching the minimum. The Commissioner of Jullundur remarks on the apathy of the Ferozepore Municipal Committee as evidenced by the difficulty experienced in getting together a quorum for special meetings. The fact that at Attock all the members of the Committee attended every meeting is remarkable, though it is observed that only half the prescribed number of meetings were held.

No minimum is fixed for the meetings of the Committees of Notified Areas. The Committees of the 4 Notified Areas of the Gurgaon District, of Kálka in Ambala and of Okára in Montgomery took advantage of their liberty and refrained from meeting even once. The Notified Areas of the Siálkot District, on the other hand, held a large number of meetings Considerable interest seems to be taken in local self-government in that district, as the Minor Municipalities seem to have been even more energetic than the Notified Areas.

7. *Sub-Committees.*—As a general rule Sub-Committees, where they exist, serve the useful purpose of relieving the General Committees of a good deal of routine work. In Amritsar, Lahore and Mooltan, indeed, their energy is said to be excessive. The General Committees of those Municipalities should be on their guard against leaving too much to their Sub-Committees, whose powers should be suitably limited. In Hazro the system of Sub-Committees has had to be suspended owing to the untrustworthiness of the members.

8. *Irregular proceedings of Committees and proceedings overruled.*—The only cases of any importance in which interference with the proceedings of Municipal Committees was necessary occurred in Rewári and Ferozepore. The former Municipality most discreditably attempted to slur over some octroi malversations, but their proceedings were set aside and the officials concerned convicted and punished by a Criminal Court. The Ferozepore Committee came into collision with the Deputy Commissioner's authority by resolving to fine a Gymnastic Instructor, instead of cancelling his appointment, as the Deputy Commissioner had requested the Committee to do. In Gurdáspur, also, action had to be taken by the Deputy Commissioner under Section 179 of Act XX of 1891 in a case in which the Municipal Committee declined to pay the salary of the Head Master of the Municipal Board School at the enhanced rate due to him under the Education Code.

9. *Rules and bye-laws framed by the Government or by Committees and the working of the same.*—The Delhi Municipality framed bye-laws for the collection of a wheel tax and of a toll on vehicles and animals entering the Municipality. New Building Bye-laws under Section 92 of the Act were also sanctioned, and the Committee were empowered by the Local Government to accept composition up to Rs. 50 for breaches of the latter bye-laws. The Simla Committee altered the market bye-law defining the places for sale of certain articles of food and drink, and published bye-laws dealing with the duties of some of their officers. Power was given by notification, under Section 184 (*u*) of the Act, to the Deputy Commissioner of Ludhiána to overrule proceedings of the Municipal Committees of the district as to encroachments upon streets and alienation of public land. The Lyallpur Committee framed bye-laws for the regulation of slaughter-houses and the registration of births and deaths, and Building Bye-laws under Section 92 of the Act. The Building Rules published

for the Hazro Municipality are said to be too advanced for the requirements of that town. Their future working will require to be watched. Building Bye-laws were also framed by the Dera Gházi Khan Municipality.

10. *General working of the Committees.*—The Committees of the Delhi Division worked fairly well, with the exception of Bhiwáni (Hissar) and Rewári (Gurgaon), whose members show a lack of public spirit and have little or no appreciation of the responsibility of their position. Rái Sáhib Lála Murli Dhar is again mentioned for his services to the Ambala Municipality, of which he is the Senior Vice-President. An irregular loan of Rs. 1,000 was made from District Funds to the Kálka Notified Area, where the salaries of the establishment had got into arrears. The loan was repaid within the year, but was of course quite unauthorised. The Municipality of Hoshiárpur is held up by the Deputy Commissioner as affording an example of what local self-government can be. The rest of the Committees in the Jullundur Division are reported to have worked satisfactorily, with the exception of Ludhiána, where both energy and honesty of purpose are said to be lacking.

The Committees in the remaining Divisions worked fairly well on the whole. Of the Siálkot Committee the Deputy Commissioner writes: "the Committee showed some interest in the measures taken to keep plague out of the city, but on the actual appearance of the disease apathy took the place of interest." A notable exception was the Municipality of Hazro in the Pesháwar District, where it is said that for some time back the funds of the Committee have been exploited for the benefit of some, at least, of the members, and a deplorable state of dishonesty is apparent. Enquiries were held into the conduct of business for the last five years, but final orders have not as yet been passed.

PART II.—TAXATION.

11. *Forms of taxation in force, and alterations in the same.*—In the Simla Municipality three new taxes were imposed, a water tax, a house tax and a tax and toll on tongas and ekkas entering Municipal limits. In the Jullundur Division, Jagraon followed up its exemption of produce of town-lands from octroi, granted last year, by a similar exemption of fodder of all sorts. In the Pesháwar Division, Abbott-abad imposed a conservancy tax on bungalows within civil limits and a water tax on private taps in occupied houses. In the remaining Divisions no changes were made.

12. *Income derived from taxation.*—The total revenue derived from taxation in Municipalities and Notified Areas was Rs. 33,05,173 as against Rs. 32,59,672 last year, showing an increase of Rs. 45,501, which brings the figures very nearly into line with those of the year preceding the famine. The increase in octroi was Rs. 45,234, and in other taxation Rs. 267 only.

(a) Income derived from octroi.—The octroi income of the Delhi Municipal Committee was less by Rs. 11,973 than last year, showing that the depression caused by the famine had not yet filled up. Simla shows an increase of Rs. 4,083, and considerable increases are also shown by the Minor Municipalities of Delhi, Hissar and Gurgaon. The decrease of Rs. 2,150 in Ambala is attributed to the prevalence of scarcity in the early part of the year.

The falling-off of Rs. 3,528 in the Jullundur Municipality is said, with some plausibility, to be partly due to plague restrictions. An increase of Rs. 2,665 in Hoshiárpur is attributed to larger imports of grain subsequently re-exported in quantities too small to be entitled to refunds.

The fluctuations in the Lahore Division call for no remark.

In the Ráwalpindi Division the excellent agricultural conditions which prevailed during the latter part of the year are said to be responsible for the large increases of Rs. 10,890 in Ráwalpindi itself, of Rs. 5,042 in Siálkot, of Rs. 4,624 in Gujránwála, and also for the smaller increases of Rs. 1,380 and Rs. 1 325 reported for Wazirabad and Khusháb respectively. Jhelum, Gujrát and Pind Dádan Khan, on the other hand, show decreases of Rs. 5,149, Rs. 2,167 and Rs. 1,928, which have to be explained by the unhappy conditions which prevailed earlier in the year.

The Peshávar Division as a whole again shows a very large increase of Rs. 63,994, for Rs. 43,475 of which Peshávar itself is responsible. The increase is ascribed to closer supervision. The small increases of Rs. 1,538 and Rs. 1,5?5 in Kohát and Abbott-abad, respectively, are explained by the increase in the number of troops stationed in those towns. The transfer of the Hazro and Attock Municipalities to the Peshávar Division accounts for an addition of Rs. 17,264 to the octroi income of the Division generally.

The Deraját Division shows a decrease of Rs. 8,638. The large decreases of Rs. 6,045 and Rs. 3,361 in the octroi receipts of the Municipalities of the Dera Ismail Khan and Bannu Districts are traced directly to the stoppage of exports to the Mahsúd country owing to the blockade. The decrease in the Dera Ismáil Khan District is also said to be partly due to the recent erection of serais outside Municipal limits, and the Commissioner implies that steps ought to be taken to extend those limits so as to include the serais. As remarked last year, however, it is possible that these buildings serve the useful purpose of preventing the taxation of through-trade, and it is worth considering whether the need of bonded-warehouses is not indicated by the spontaneous springing up of serais outside octroi limits.

The falling-off of Rs. 1,243 in the receipts of the Dera Gházi Khan Municipality is ascribed to the dislocation of trade caused by the recent inroads of the River Indus The Municipalities of the district as a whole, however, show an increase of Rs 1,674, mainly owing to a large increase of Rs. 2,400 in Dájal.

(b) Income derived from taxation other than octroi.—The total for the Province is, as remarked above, only Rs. 267 in excess of last year's total.

The increase of Rs. 7,430 in Delhi is due to the tolls on carts which came into force in October 1900.

In Simla a decrease of Rs. 5,140 in the receipts from taxes on houses and lands is almost balanced by the new water-rate which was levied for the first time during the year and realised Rs. 4,951. The increase of Rs. 1,876 in the Hissar District is accounted for by the imposition of a new house tax in Bhiwáni. The Municipality of Ambala is said to find difficulty in collecting its water-rate, arrears of which are increasing yearly. This year's receipts, however, are only Rs. 320 less than those of last year.

Dharmsála is the only Municipality in the Jullundur Division where taxation other than octroi is in force. The small decrease of Rs. 230 calls for no remark.

No explanations are offered by the Commissioner of Lahore for the fluctuations of receipts in his Division. Such items, however, as decreases of Rs. 4,454 and of Rs. 3,481 in Jhang-*cum*-Maghiána and Kasúr, and an increase of Rs. 1,017 in Montgomery, seem to call for some kind of comment. The wheel tax in Lahore and the house tax in Lyallpur are said to be recovered with some difficulty. The Divisional Report is silent as to the large sum of Rs 2,184 shown under the head "Miscellaneous" in the Income Statement of the Lyallpur Municipality. It was, however, ascertained from the Deputy Commissioner of Jhang that out of this sum Rs. 2,153 were derived from "Chaukídára Fees" and Rs. 30 from "Fees for opening doors." These imposts should either be placed on a legal basis or be discontinued.

The Ráwalpindi Division shows a decrease aggregating Rs. 2,559, for which a slack season in Murree is mainly responsible.

The Pesháwar Division shows receipts under this head of Rs. 3,662 as against Rs. 4,375 in 1899-1900 and Rs. 5,535 in 1898-99. The Amír's embargo on the exportation of horses from Afghánistán has still further pulled down the receipts for the tax on the sale of animals in Pesháwar. This tax realized Rs. 4,032 in 1898-99, Rs. 2,890 last year, when the prohibition came into force, and only Rs. 1,920 in the year under review.

The decrease of Rs. 3,479 in the tax on houses and lands in Dera Gházi Khan, the only town in the Deraját Division where taxation other than octroi is in force, is hardly explained by saying that a smaller amount was realized during the first three months of 1901 than in the corresponding period of the previous year. Possibly the uncertain behaviour of the Indus may have had something to do with the falling off.

13. *Incidence of taxation.*—In the Municipal towns proper the average incidence of taxation as based on the Census of 1891 was Re. 1-5-6 as against Re 1-5-3 in the previous year and Re. 1-5-9 in 1898-99. The incidence of octroi Class I (Grain) only was Re. 0-13-1, or the same as in 1898-99. Last year it was Re. 0-12-9

The fluctuations in the incidence of taxation in the Minor Municipalities are slight and call for no remark. It is found from the figures of the larger Municipalities that the average incidence of total octroi, taking the Province as a whole, was Re. 1-5-8 as against Re. 1-5-3 in the previous year. This average was exceeded in 19 towns, the most notable exceptions being Edwardes-abad (Rs. 5-5-2) and Simla (Rs. 5-0-10). Among towns where taxation other than octroi exists to any noticeable extent either together with that tax or without it, the only noteworthy cases are those of Simla, Kasumpti, Murree and Dalhousie, where the incidence was Rs. 12-11-3, Rs. 7-10-4, Rs. 6-4-2 and Rs. 4-6-4 respectively.

In the case of Simla it is remarked that, if the population is taken as 31,621 according to the Census of 1898, the incidence drops to Rs. 7-7-6 per head. The incidence reported for Dalhousie has been based on the Census of 1898, and that reported for Murree on a special census held in September 1900.

14. *Working of octroi tax.*—Octroi continues to be collected by direct agency throughout the Province, except in Jullundur and in some of the minor towns of the Jullundur District, where the octroi on vegetables and fruit is leased with the annual sanction of the Commissioner. The change of practice initiated by the Municipality of Siálkot in collecting octroi on rail-borne goods through its own employés, instead of collecting it through the Railway Department, resulted in an increase of income in addition to a saving of the 5 per cent. commission hitherto paid to the Railway authorities.

15. *Cost of collection.*—The cost of collection in the Delhi Division fell from Rs. 79,860 in the previous year to Rs. 66,605. A large decrease of Rs. 3,743 in the Gurgaon District is due to the inclusion in last year's figures of the price of a "baoli," acquired and filled up for sanitary reasons by the Municipality. The excessive cost of collection in Ballabgarh (31·73 per cent.) is explained by the small size of the town and the number of its entrances. A similar explanation was given in the case of Búriya last year.

The high cost of collection in Aláwalpur (27·64 per cent. as against 23·51 per cent. in the preceding year) is attributed mainly to a fall in income. The decrease in cost of collection in Makhu and Muktsar is satisfactory. The cost of collection in Jullundur Municipality has increased steadily from 8·59 per cent. in 1898-99 to 9·64 in 1899-1900 and 11·42 per cent. in the year under report.

In the Lahore Division the percentages rule low, with the exception of Rámdás, where it is only 7 less than last year, when it reached the record pitch of 50 per cent The Commissioner suggests that octroi in Rámdás is a mistake; if so, suitable proposals for its abolition should be submitted.

In the Ráwalpindi Division Sohdra is again to the fore with a percentage of 35, followed by Kila Sobha Singh and Kila Didár Singh with respective percentages of 28 5 and 28. In Gujránwála the percentage rose from 8 to 13, owing to the purchase of a building for use as a bonded warehouse.

In the Pesháwar Division the cost of collection was universally low, while in the Deraját Division Kahror shows the highest percentage of 24·76, followed by Laki and Jámpur with percentages of 17 2 and 16 5 respectively.

16. *Refunds of octroi.*—In the Delhi Division the total amount refunded was Rs. 24,125 as against Rs. 22,687 in the previous year, showing an increase of Rs. 1,438 The Delhi Municipality granted Rs. 1,387 more than last year. The increase of Rs. 1,700 in Simla is attributed to the fact that the refund system has been substituted for the system of free passes with regard to all through-trade. The Hissar Municipalities are said to have "failed to grant refunds as liberally as they should have." The figures, which show large decreases in this year's refunds as compared with those of last year, require further investigation. The same remark applies to the figures of the Rohtak and Karnál Municipalities The striking decrease in the figures for the Ambala Municipality is attributed to the facts that many of the claims could not be settled within the year, and that a considerable number of arrears were paid off last year. The Committee should turn its attention to the settlement of the large number of outstanding claims. The Rewári Municipality shows a large increase of Rs. 2,806, due to the payment of arrears during the year under review.

The Jullundur Division generally exhibits a falling-off of Rs. 2,638, for which the Ferozepore Municipality is mainly responsible, with an unexplained decrease of Rs. 2,007. Even the small amount paid away in refunds, Rs. 806, is said to have been paid mainly in settlement of outstanding claims. The amount actually refunded represents only 2 44 per cent. of the octroi income, and the Ferozepore system of refunds obviously requires overhauling. The Lieutenant-Governor hopes that the new Refund Rules which came into force in February 1901 will produce an improvement in next year's returns. A decrease of Rs 877 in the Jullundur Municipality is attributed to the freer use of the bonded warehouse.

The Lahore Division also exhibits a very large decrease of Rs 21,226. The largest decrease was in Amritsar, which paid away Rs. 12,120 less than last year. Over 13,000 applications for refund were dealt with by that Municipality during the year, and claims to the extent of Rs. 15,258 were left pending at its close on account of the census operations. The remarkably small amount paid away during the year by the Kasúr Municipality, Rs. 6,594, as compared with Rs. 13,229 in the previous year and Rs. 19,979 in 1898-99, is not explained. The Lahore Municipality refunded only Rs. 1,717 less than last year.

In the Ráwalpindi Division there was a substantial increase of Rs. 12,903, to which Gujránwála contributed Rs. 5,157, Ráwalpindi Rs. 4,375, and Siálkot and Jhelum Rs. 1,221 and Rs 1,316 respectively. In Gujránwála claims for refund aggregating Rs. 25,337 were outstanding at the close of the year "for want of budget provision," which hardly constitutes a satisfactory reason. The significance of the large increase in refunds in Gujránwála was pointed out in last year's review. Complaints regarding delay in disposal of applications were made in Ráwalpindi and formed the subject of correspondence with Government. Refund rules are in force in Wazirabad, but no refunds were granted in this or the previous year.

The amount refunded in the Pesháwar Division was Rs. 3,032 as against Rs. 407 only in the previous year. The decrease in Pesháwar itself, attributed last year to the increasing popularity of the bonded warehouse, has been followed by an increase of Rs. 2,253, which is ascribed to an increase in through-trade. The figures (Rs. 64 in 1899-1900, and Rs. 2,317 in 1900-01) are remarkable and can hardly be explained without supposing a very considerable taxation of through-trade.

The refunds granted in the Deraját Division have risen from Rs. 51 in the previous year to Rs. 185. The increase is not explained in the Divisional Report.

17. *Bonded warehouses.*—The two bonded warehouses at Sonepat have produced a joint income of Rs. 26 as against Rs. 6-11-9 last year, and are apparently beginning to justify their existence. The bonded warehouse at Delhi yielded Rs. 1,241 as compared with Rs. 1,370 in the previous year.

It is understood that no fees at all were taken at the bonded warehouses in Jullundur and Ludhiána, although the figures reported show that the former warehouse is extensively patronised. The Ludhiána warehouse is not so freely used, in spite of the fact that the adjoining grain mandi has been up to the present time a complete failure. The Ferozepore warehouse realised Rs. 50 only as against Rs. 132 in the previous year The Fázilka Municipality continued to rent a godown for a period of six months for use as a bonded warehouse, but hitherto with so little success that the experiment is said to have been finally abandoned.

Arrangements were made towards the close of the year to bring the Amritsar warehouses under better control. Nothing is said in the Divisional Report as to the success of these arrangements, which should be fully reported on in next year's report.

The change of site in the warehouses of the Ráwalpindi Municipality seems to have brought them into temporary disfavour. The Gujránwála warehouse continues to be a failure, owing, no doubt, to the undue leniency of the refund system in that Municipality. It is hoped that the amendment of the refund rules will lead to a more extensive use of the bonded warehouse by reducing the abuses of the refund system, which were commented upon in last year's review.

The working of the bonded warehouse in the Pesháwar Municipality, the only one in the Division, calls for no remark.

In the Deraját Division, the income of the Edwardes-abad warehouse has fallen again to Rs. 31 as against Rs. 50 in the previous year. At Dera Ismail Khan the new serais outside octroi limits continue to intercept through-trade. At Kálabágh the building hired for use as a warehouse realised an income of Rs. 4 only.

18. *Comparison of actual taxation of dutiable articles with the standard of taxable consumption sanctioned by Government.*—In the Delhi Division the standard of taxable consumption was exceeded, as usual, in Bhiwáni, Sirsa, Rewári and Delhi. The excess was most noticeable in Bhiwáni, where it extended over grain, sugar, drugs, cloth and metals. The explanation that Bhiwáni is a popular centre for the celebration of weddings can hardly be accepted as adequate. It is probable, as the Commissioner remarks, that the excess points to the taxation of through-trade in many Municipalities, though no certain conclusions can be drawn as long as the standards of taxable consumption continue to be based on the now obsolete census figures of 1891.

Even allowing for the increase in population which may be disclosed by the returns of the recent census, there can be no doubt that over-taxation is rife in the Jullundur Division; glaring instances, such as the Notified Area of Khánpur, where the amount of cloth taxed is more than 7 times as large as it ought to

be, and Fázilka, where the standard for the taxation of grain hardly exceeds one-tenth of the amount actually taxed, cannot be disposed of by the stereotyped explanations, the absurdity of which is commented upon by the Commissioner. And these are only two out of a large number of noteworthy instances detailed in the Divisional Report. The Commissioner of Lahore takes advantage of the antiquity of the fixed standards to dis miss the matter of over-taxation in few words. From what he says, however, the state of things appears to be very much better in the Lahore than in the Jullundur Division.

In the Ráwalpindi Division it is only necessary to notice Gujránwála, where refined sugar, oil-seeds and metals seem to be considerably over-taxed, while no remarks are called for by the Pesháwar and Deraját Divisional Reports.

PART III.—ACCOUNTS.

19. *Balances.*—The balances of the several Municipalities and Notified Areas at the beginning of the year amounted to Rs. 12,58,000 in cash and Rs. 1,64,000 invested; at the end of the year they were Rs. 12,88,000 and Rs. 1,62,000, or Rs. 30,000 and Rs. 2,000 higher and lower respectively. The increase in the cash balance is the sum of a surplus of Rs. 19,000 in the revenue and expenditure account and a net credit of Rs. 11,000 in the account of "debt transactions"; the decrease of investments is the difference between realizations of old investments to the extent of Rs. 18,000 by the Delhi Municipality and fresh investments to the value of Rs. 16,000 by the Simla and Murree Municipalities. Of the funds remaining invested at the close of the year Rs. 59,100 were appropriated for a contemplated water-works project in Ludhiána (Rs. 33,8 0) and for repayment of the Town Hall Debenture Loan in Simla (Rs. 25,300); Rs. 13,900 were obligatory investments of the sale proceeds of land in Simla (Rs 11,500) and Murree (Rs. 2,400), only the interest on which is at the disposal of the Committees; and Rs. 89,000 were optional investments for general purposes held by the Ráwalpindi (Rs. 50,000), Hissar, Hánsi and Hazro (Rs. 10,000 each), Jhajjar (Rs 7,000) and Hoshiárpur (Rs. 2,000) Committees. Except a trifling sum standing in the Savings Bank at Ludhiána all these investments were in Government securities. Of the cash balance less than 2½ per cent. belonged to the Notified Areas, whose balances, of which 11 were deposited with private bankers, are generally of insignificant amount, 28 being below Rs. 1,000, only 2 above Rs. 2,000, and only 1 (Tánk Rs. 7,000) higher than Rs. 3,000. The balances of the Municipalities noted in the margin fell below the minimum prescribed by Government; steps should be taken to have them brought up to the required amount in the current year; this is particularly desirable in the cases of Ludhiána and Mooltan, where the deficiencies are comparatively large and the maintenance of full working balances should not be dispensed with. On the other hand some Municipalities had much larger balances than they needed as working balances. The question of investing these surplus accumulations, if they are not likely to be spent immediately, should be considered. A list of the principal Municipalities, which seem to have funds available for investment, is given in the margin. Hazro in the Ráwalpindi District and Eminabad in the Gujránwála District are the only Municipalities which banked with private bankers. The latter was unfortunate in the loss of funds amounting to nearly Rs. 3,000 caused by the insolvency and absconding of the banker employed. The loss might have been prevented, and the circumstances of the

case suggest the necessity, where Municipal funds and the funds of Notified Areas are deposited with private bankers, of a periodical verification of the security taken. Commissioners of Divisions are requested to satisfy themselves that the verification is not overlooked.

20. *Debt transactions.*—The only entries calling for notice in the accounts of the "debt transactions" of Municipalities are those relating to *loans.* The balance of loans outstanding increased by Rs. 2,000 during the year, that being the difference between advances aggregating Rs. 1,61,000 taken by the Delhi and Simla Committees against the loans sanctioned for the water, drainage and other works in progress in those Municipalities and a total of Rs. 1,59,000 recovered from these and other Committees in repayment of loans advanced in previous years. The Ráwalpindi Committee completed the repayment of the loan which they raised in the local market some years ago for the construction of the local water-works. The loan remaining due at the end of the year by each indebted Municipality is stated against it in Appendix III; particulars of the works for which the several sums were borrowed have been given in previous reviews. The Simla and Lahore outstandings include Rs. 50,000 and Rs. 1,50,000 due on debentures and to the Bank of Bengal respectively; all the rest are Government loans. The statement on the margin compares the average surplus revenue of each indebted Committee during the past three years with the annual sum which it is required to pay for the discharge of its debt. The result brought out in the case of Ludhiána seems unsatisfactory, but that Municipality has not in reality experienced any difficulty in meeting the annual loan obligation.

	Rs.	Rs.
Delhi ...	47,200	64,500
Ambala ...	2,100	1,600

Murree ...	9,300	5,800
Haripur ...	3,400	2,300
Peshawar ...	16,500	6,000
D. G. Khan ...	28,600	27,000

21. *Revenue and Expenditure.*—The proceeds of taxation and the cost of collecting (including refunds) the several taxes, which form the subject of Section II of this review, account for 70·5 and 9·8 per cent. of the Municipal *revenue* and *expenditure* respectively. The residues are dealt with under the main heads in the following paragraphs; they amounted to Rs. 13,83,000 and Rs. 42,10,000 as compared with Rs. 13,52,000 and Rs. 41,99,000 in the previous year.

Realizations under Special Acts.—About three-fifths of the receipts are due to the Cattle Trespass Act, the collections under which show a slight decrease as compared with those of the previous year. A falling off in the income of the Municipal cattle-pound at Kohát is attributed to a "practice adopted of late by the zamíndárs of exacting 'nágha' from owners of animals found trespassing instead of taking the animals to the pound." Where this practice obtains, the maintenance of a cattle-pound serves merely as an instrument of blackmail and is not justifiable. The cost of maintaining the Municipal cattle-pounds was Rs. 7,000, or approximately about a third of the receipts. Fees were charged in 10 Municipalities on conveyances licensed under the Hackney Carriages Act. The proceeds of the local rate levied under the District Boards Act within the Lyallpur and Lahore Municipalities were credited to the Municipal Fund. The Chaukídári Act of 1856 remained in force only in 10 Notified Areas.

Revenue from property and powers apart from taxation.—Only 36 Municipalities derived an income from the licensing of offensive and dangerous trades, and only 17 realized fees in bonded warehouses connected with the octroi tax. The licensing of job-porters and other servants plying for hire seems to have been restricted to the Simla and Murree Municipalities. The receipts from these sources, with the incomes obtained from markets and slaughter-houses, fines under the Municipal and other Acts, interest on investments and a few other pettier items, account for about a seventh of the revenue under this head.

The remainder accrued from "Rents of lands and houses, &c.," "Sale proceeds of lands, &c.," "Conservancy" and "Educational and Medical Institutions" which conjointly afforded an income of Rs. 6,70,000, or about half a lakh more than in the previous year.

The increase in "Rents" was Rs. 9,000 and occurred chiefly in the Delhi, Lahore, Pesháwar and Kohát Municipalities, the rent receipts of which, with those of Simla, Amritsar and Edwardes-abad, amount to 76 per cent. of the total, the largest being those of Simla (Rs. 27,000), Lahore (Rs. 36,000) and Pesháwar (Rs. 33,000). In Delhi, Kohát and Edwardes-abad the incomes were about Rs. 7,000 each. Only 15 out of the 94 remaining towns which had any rent income at all realized more than Rs. 1,000 on account of rents.

More than four-fifths (Rs. 68,000 out of Rs. 83,000) of the "Sale proceeds of lands, &c.," are to be found in the accounts of the new town of Lyallpur, where, with the sanction of the Government of India, the realizations from sites allotted for house-building, &c., are as a special case credited for the present to the Municipal Fund. The Bhera Municipality in Shahpur disposed of a site for Rs. 7,000; the receipts elsewhere are insignificant.

"Conservancy receipts" aggregating Rs. 1,71,000, as compared with Rs. 1,58,000 in the previous year, were realized in 135 and 22 out of 148 and 40 Municipalities and Notified Areas respectively, the exceptions among Municipalities being those mentioned in the margin. Some of the incomes are exceedingly minute and the great majority not large, but where the source exists it is probably capable of development, and Municipal Committees should continue to devote their attention to the question of the profitable disposal of the town sweepings and refuse for manuring and brick-burning. By far the largest income was that of the Amritsar Municipality, which was Rs. 39,000; the receipts in Siálkot, Lahore, Pesháwar and Delhi ranged from Rs. 10,000 to Rs. 13,000, and in Edwardes-abad, Ludhiána, Mooltan and Gujránwála they were from Rs. 5,000 to Rs. 7,000. The total revenue is equal to 26·7 per cent. of the total expenditure on "Conservancy, including road cleaning and watering."

Simla.	

The receipts from Educational and Medical Institutions did not on the whole differ materially from those of the previous year. Allied to them are the grants received by the Municipalities from Government, Local Funds and other sources on account of Education and Medical Relief, which are separately recorded in the accounts; and these added, the Educational and Medical receipts come to Rs. 3,69,000 and Rs. 1,03,000, and are equal to 60 and 22 per cent. of the total Municipal expenditure on "Public Instruction" and "Hospitals and Dispensaries," including "Vaccination," which amounted to Rs. 6,15,000 and Rs. 4,67,000 respectively. The net Municipal expenditure on these accounts was therefore Rs. 2,46,000 and Rs. 3,64,000, or about 7·4 and 11 per cent. of the revenue from taxation alone and 6 and 8·6 per cent. of the total Municipal revenues excluding only the Educational and Medical receipts. The number of scholars on the rolls of the Secondary Schools managed by Municipal Committees on the 31st March 1901 was 23,471, of whom 7,795 and 15,676, or 33·21 and 66·79 per cent., were in the Secondary (including High and Middle) and Primary (upper and Lower) stages respectively.

Grants and Contributions.—The grants for Educational and Medical purposes have been mentioned above. There remain only the grants for general purposes, which amounted to Rs. 29,000 out of a total of Rs. 2,53,000, about two-thirds being Government grants contributed chiefly to the Simla, Kasumpti, Lahore and Ráwalpindi Municipal Funds. The corresponding head, *viz.*, "Contributions for general purposes" on the expenditure side of the accounts,

shows an outlay of Rs. 1,48,000, which for the most part represents the compensations paid (1) to Cantonment Funds for loss of revenue where a separate octroi system might be, but is not, maintained in cantonments; and (2) to Government on account of Provincial properties surrendered to Municipal management.

Miscellaneous.—Against the "Recoveries on account of services rendered to private individuals," which amounted to Rs. 25,000, are charged on the expenditure side Rs. 16,000 for "Actual cost of work done." These receipts and charges are to be found chiefly in the accounts of the Delhi Municipality, where they amount to Rs. 21,000 and Rs. 14,000, the major portion of the former being connected with the Municipal Committee's supervision of the manufacture of gold and silver wire for embroidery. Delhi, Ludhiána, Mooltan, Amritsar, Lahore and Haripur are the only Municipalities with a considerable or a moderately large "Nazúl income"; their receipts were Rs. 25,000 in Delhi and from Rs. 2,000 to Rs. 5,000 in the other towns named, the total for all Municipalities being Rs. 41,000. The corresponding (nazúl) charges on the expenditure side of the accounts amounted to Rs. 10,000, or slightly less than a quarter of the receipts. The income (subscriptions and other receipts) of the Leper Asylum at Tarn Táran was Rs 8,000 against an expenditure of Rs. 11,000 incurred by the Amritsar Municipality in maintaining the institution. From "Sales of water" the receipts were Rs. 74,000 derived chiefly in Delhi, Simla and Lahore (Rs. 25,000, Rs. 7,000 and Rs. 37,000), and partly also in Ambala, Chunián, Ráwalpindi and Pesháwar. Except Chunián all these towns are provided with "water-works." Taking into consideration that there are no separate water taxes in the Ráwalpindi and Pesháwar Municipalities as there are in Simla and Lahore, their receipts from sales of water are remarkably low. The revenue obtained from gardens and sales of trees, grass, &c., was Rs. 87,000, giving a return of 66 per cent. on the expenditure on "Arboriculture, public gardens and experimental cultivation." This high percentage of income is, however, due to the extraordinarily high receipts in Simla, Delhi, Lahore and Amritsar, where the returns on expenditure were 127, 42, 47 and 57 per cent. Excluding these Municipalities and also Murree, the accounts of which show no expenditure at all against an income of Rs. 7,000—the expenditure is probably misclassified under some other head—the receipts are Rs. 22,000 and the expenditure Rs. 64,000, a return of about 34 per cent. Nearly the whole, or Rs. 33,000 out of Rs. 35,000, of the receipts from and Rs. 11,000 out of Rs. 15,000 of the expenditure on cattle and horse fairs appertain to the Amritsar Municipality. The remainder of the *Miscellaneous* revenue, which includes Rs. 28,000 of refunds of amounts drawn but not expended, is of no importance, but the comparatively large refund credits in Mooltan, Amritsar and notably Hazro seem to indicate neglect of the oft repeated injunction that money should not be drawn till it is required for disbursement. The total revenue under the head shows a decrease as compared with the previous year of Rs. 13,000.

	Per cent.
General Administration	14·9
Public Safety	15·7
Public Health and Convenience	45·5
Public Instruction	13·2
Famine Relief	0·5
Miscellaneous, including contributions for general purposes	10·2

22. The proportions in which the expenditure from the Municipal Funds was devoted to the several main heads of service are shown on the margin.

General Administration.—Refunds of, and the cost of collecting, taxes which have already been noticed account for 9·8 of the proportion under this head, leaving 5·1 due to "Office Establishments, Inspection, Honorary Magistrates' Establishments, &c.," "Survey of land" and "Pensions and Gratuities." These charges call for no remark.

Public Safety.—There was an increase of Rs. 33,000 in the expenditure on this account as compared with the previous year, the outlay on "Lighting" being Rs. 19,000 and on "Police" Rs. 17,000 higher and the cost of "Fire Establishments, &c.," Rs. 3,000 lower. About 26 per cent. of the "Fire" charges were incurred in Simla, where an organized fire brigade is maintained. The advance in the outlay on "Lighting" occurred for the most part at Lahore, where acetyline gas was substituted for oil lighting on the Mall. There appears to have been no lighting at all in 39 Municipalities and 34 Notified Areas. The expenditure was highest at Lahore (Rs. 27,000) and moderately large (from Rs. 9,000 to Rs. 12,000) in Amritsar, Peshâwar, Delhi and Simla; excluding these towns and also Râwalpindi and Mooltan, where Rs. 3,000 and Rs. 4,000 respectively were spent on lighting, the average expenditure was less than Rs. 400. The Police expenditure was generally on the same scale in both years; in Lahore the Town Police were increased and the salaries of Inspectors and Deputy Inspectors were assimilated to those of the same ranks in the Provincial Police at an increase in cost of Rs. 7,000; in Amritsar the grant of local allowances to the Municipal Police caused an increase of Rs. 4,000.

Public Health and Convenience.—The expenditure under the sub-heads "Conservancy," "Hospitals and Dispensaries," "Vaccination," "Cattle-pounds" and "Arboriculture and Public Gardens" have already been noticed in connection with the corresponding receipts and call for no further remark. Of the remaining sub-heads the less important, *viz*, "Markets and slaughter-houses," "Dâk Bungalows and Serais," "Registration of births and deaths," "Public Works establishment, buildings, roads and stores," require no comment beyond this that the expenditure under the first is less than a half of the revenue derived from properties of the class. There remain "Water-supply" and "Drainage" under which the "Capital outlay" was Rs. 1,43,000 and Rs. 1,41,000 and the "Establishment and maintenance charges" were Rs. 1,39,000 and Rs. 49,000; debits of Rs. 75,000 and Rs. 40,000 against Delhi and Lahore and Rs. 87,000 and Rs. 27,000 against Simla and Lahore appear in the accounts under the heads Water-supply and Drainage respectively. The expenditure on the large works under construction in these Municipalities was met from borrowed funds. The Râwalpindi Municipality contributed a sum of Rs. 16,000 from the current income towards the cost of improvements to the Cantonment water-works by which the town benefits. From current income also was expended by the Peshâwar and Edwardes-abad Committees about Rs. 3,000 each on water-works, and by the Amritsar, Hazro, Peshâwar and Delhi Committes from Rs. 3,000 to Rs. 5,000 on drainage works. Under the head "Establishment and Repairs, &c.," the principal disbursements were, on account of water-works, at Delhi (Rs. 38,000), Ambala (Rs. 10,000), Simla (Rs. 27,000), Lahore (Rs. 25,000), Amritsar (Rs. 8,000) and Peshâwar (Rs. 6,000), and, on account of drainage works, at Simla (Rs. 6,000), Lahore (Rs. 4,000) and Peshâwar (Rs. 5,000). The following information regarding large water and drainage works either in progress or in contemplation has been supplied for the most part by the Public Works Department:—

Simla improvements scheme.—Work was started on the subsidiary water main, on the upper gravitation line and on the new filter beds. The pipes for the main have been supplied. It was expected that the works would be sufficiently advanced to be used during the monsoon of 1901-02. The pipes for the sewerage mains arrived late in the year, and the progress made up to the end of March 1901 was small. The work was, however, well in hand at the end of the year, and it is expected that all the mains will be laid in 1901-02. The experimental macerating tanks and contact beds were brought into use by November 1900.

Delhi water and drainage works.—The extension of the works was still in hand. At the end of the year the masonry works were all finished, but the filtering materials had not been put into the filter beds, and the erection of the engines and pumps had not been completed. The works were expected to be

finished in June 1901. No further progress was made with the intra-mural drainage system owing to the want of funds. The drainage of the city as far as it has been completed is very satisfactory.

Lahore water and drainage works.—The improvements taken in hand during the year in connection with the water-works were the supply of a new pumping engine and the raising of the service reservoir tanks to give a greater head for distribution. The reconstruction of the intra-mural drains in the city and parts of the bazár suburbs were proceeded with slowly as funds became available. The interior drainage of the city may now be said to be practically finished, and that of the big Anárkali Bazár is making satisfactory progress. The rolling stock and rails for the conservancy tramway were on their way from England, and work on the line should be far advanced by the end of 1901-02.

Amritsar water-works.—The project has been sanctioned by the Government of India and now only awaits the provision of funds by the Municipality to be put in hand. The question of ways and means is under consideration by the local officers and the Committee.

A scheme for a water-supply for the rising town of Lyallpur is being worked out, and a water-works project for Dharmsála is pending provision of funds by the Municipality. A scheme for extra-mural drains and outfall and for paving streets in Ambala has been approved by Government, and arrangements are in progress for the grant of a loan of Rs. 70,000 to the Municipality for the construction of the works. The Fázilka drainage was completed during the year with the exception of the outfall to the collecting tanks, which will probably have to be remodelled.

"Public Instruction" and "Contributions."—These heads have been noticed above in connection with the corresponding revenues.

Miscellaneous.—The expenditure charged under this head on account of "Work done for private individuals," "Nazúl," "Fairs" and "Leper Asylums" has also been dealt with in the remarks on the connected receipts. The rest of the expenditure requires no comment. It consists for the most part of the interest paid on loans by the indebted Municipalities, which amounted to Rs. 1,81,000. The unclassified miscellaneous expenditure shows an increase of Rs. 22,000 over that of the previous year, which is due chiefly to the census taken in March last.

Famine Relief.—The expenditure of Rs. 25,000 incurred from Municipal Funds on famine relief is to be found chiefly in the accounts of the Municipal towns in the Rohtak, Gurgaon and Delhi Districts, where famine conditions continued during the earlier of the months of the year. The Rewári and Rohtak Municipalities spent as much as Rs. 9,000 and Rs. 6,000 respectively. The major portion of the charges are on account of gratuitous relief given either at poor-houses or at the houses of the people, but about a fourth of it was on relief works.

PART IV.—GENERAL.

23. *Health.*—In the Delhi Division the health of the Municipal towns, with the exception of the Municipalities of Gurgaon and the Minor Municipalities of the Delhi District, was bad. The death-rate from fever and cholera was specially high in the Hissar and Rohtak Districts, with regard to which a separate report is promised. Small-pox broke out in Kángra during the winter. Jullundur was not as healthy as usual, and plague again made its appearance in Banga. Ludhiána was visited by fever, cholera and small-pox. Eighty deaths from cholera are reported from Ráekot in the Ludhiána District. Ferozepore and Fázilka suffered from cholera, followed by malarial fever of a severe type due to heavy floods, and the mortality throughout the Ferozepore District was

considerable. The Lahore Division escaped with a slight epidemic of cholera at Lahore and Lyallpur. The health of the Municipalities in the Ráwalpindi Division was generally good. An outbreak of plague in Zafarwál necessitated the evacuation of that town, and a few isolated cases occurred in the town of Siálkot. In Pesháwar the year was remarkably healthy and small-pox was less prevalent than usual. In Kohát an epidemic of cholera of a virulent type was met by immediate and vigorous measures. The health of the Municipalities of the Deraját Division was good on the whole, and no cases of puerperal fever are reported from Dera Ismail Khan.

24. *Water-supply and drainage.*—The close of the year saw the completion of the Delhi water-works extension scheme. Extensions of the Simla water-works were also carried out during the year. A revised water-works scheme for the town of Bhiwáni has been proposed by the Public Works Department, considerably reducing the expenditure formerly contemplated. The yield of water from the Ambala water-works has been satisfactory, but Kálka has again been in difficulties in consequence of the failure of the springs which supply the town. A revised project for water-supply is under the consideration of the Public Works Department.

Land is being acquired for the extra-mural drainage scheme sanctioned for the town of Ráwalpindi and a scheme for the intra-mural drainage of the Municipality is said to be under preparation. In Abbott-abad a main sewer has been constructed to carry off the flood water from the bazár. A drainage scheme was prepared for the town of Bannu, but is still in an embryo stage.

25. *Important events.*—The town of Amritsar was honoured by a visit from Their Excellencies the Viceroy and Lady Curzon in April 1900.

26. There were 64 fires in Delhi, causing a loss of three lives and of property to the value of over Rs. 4,000. The Ludhiána Municipal fire-engine proved its efficiency by checking the spread of a fire which originated in a three-storied house and destroyed property worth about Rs. 3,000. Heavy rain in August and September produced floods in Ludhiána. Several houses collapsed, causing the death of three persons. Serious floods also occurred in Ferozepore Municipality. The Municipal banker of Eminabad in the Gujránwála District absconded with nearly Rs. 3,000 of Municipal money, and criminal proceedings are being taken against him. In Kohát serious fires broke out on four occasions, and a whole katra was burnt. The total loss reported was Rs. 11,612. The Lál Isán Fair, usually held in Kahror in the Dera Ismail Khan District, was stopped owing to the prevalence of cholera in the district.

27. In reviewing for the last time the administration of the Municipal towns of the Province, Sir Mackworth Young records with pleasure that satisfactory progress is being made, and that the condition of the cities of the Punjab, and especially of its large cities, affords ample testimony to this fact. By a merciful Providence not one of the latter has up to the date of writing this review been attacked with plague; possibly the sanitary improvements which have been made in them during recent years may have contributed to this immunity. The Lieutenant-Governor looks for the best results from the appointment of a Sanitary Engineer, whereby such improvements will, it is hoped, be greatly facilitated. In other departments too there are evidences of the suitability of the Municipal system to local ideas and circumstances. Organisation and combination are now possible to a degree which could not have been otherwise attained. And, especially in the large centres, party feeling and faction are for the most part giving way to a common interest and to public spirit. Local self-government has found in the Municipal system congenial soil, and is beginning to fulfil the most

sanguine expectations framed by its original founders in the early days of British rule and by its promoters in subsequent years.

ORDER.—Ordered that copies of the foregoing remarks be forwarded to all Commissioners and Deputy Commissioners in the Punjab, the Secretary to Government, Punjab, Public Works Department, and be submitted to Government of India in the Home Department.

Also that the remarks and a translation of them be published in the *Punjab Government Gazette*, English and Urdu versions respectively, and that copies of the Urdu translation be supplied to Deputy Commissioners for the information of Municipal Committees.

By order of the Hon'ble the Lieutenant-Governor,

P. J. FAGAN,

Offg. Revenue and Finl. Secy. to Govt., Punjab.

Punjab Government Press, Lahore—10-12 01—453.

Proceedings of the Hon'ble the Lieutenant-Governor of the Punjab in the Boards and Committees (Committees) Department, No. 606, dated 15th December 1902.

READ—

The Divisional Reports of Municipal Administration and Accounts for the year 1901-02.

REMARKS.—

PART I.—CONSTITUTION, &c., OF COMMITTEES.

1. *Establishment and abolition of Municipalities and Notified Areas.*—In the Rawalpindi Division the Attock Municipality was abolished with effect from 1st April 1901 and the town of Attock and the hamlet of Malahitola were declared a Notified Area. The Municipality of Hazro and the Attock Notified Area were subsequently transferred along with the Attock Tahsil from the Hazara to the Rawalpindi District. The town of Chakwal in the Jhelum District was also declared a Notified Area in November 1901. No other change took place. With the severance of the Frontier Districts 10 Municipalites and 1 Notified Area have now been transferred to the North-West Frontier Province, leaving 137 Municipalities and 46 Notified Areas in the Punjab.

2. *Revision of boundaries.*—In the Delhi Division the octroi limits of the Rohtak Municipality have been revised with the object of creating in the neighbourhood of the grain market an area free to wholesale and through-trade. This excluded area comprises the grain market, certain wholesale warehouses, and a ginning factory. The boundary of the Ambala Municipality was altered in order to exclude a road of which the Municipal Committee was not prepared to undertake the up-keep. In the Jullundur Division the boundaries of the Zira Municipality in the Ferozepore District were revised also during the year. There were no changes in the other Divisions.

3. *Changes in the system of appointing members.*—The only change occurred in the Rawalpindi Division, where, in the case of Hazro in the Rawalpindi District, the elective system was abolished owing to the Committee having been found corrupt.

4. *Elections and appointments to the memberships of Committees.*—There were 202 vacancies during the year amongst elected members, of which 65 only were contested, and the percentage of voters polling averaged about 45 per cent. As a rule the percentage of voters polling was highest in the case of smaller Municipalities. In the town of Rewari (Gurgaon) four candidates came forward for two vacancies, but before the election they agreed to draw lots and abide by the result, a proceeding which, as the Commissioner observes, furnishes rather a strange comment on our attempts to introduce representation.

In certain Municipalities of the Jullundur Division elections, which should have been held, did not take place owing, in the case of the Jullundur District, to the delay on the part of the Tahsil staff in the revision of voters' lists. In the other districts plague was apparently the disturbing cause, but the omission has not been specially noticed and the Commissioner should enquire into the matter.

5. *Proportion between ex-officio and nominated members on the one hand and elected members on the other.*—The proportion of two elected members for each member appointed by name or official designation is generally preserved. In the case of Nurpur, as noticed last year, no candidate has come forward for election for several years past, and there is now only one elected member on the Committee.

6. *Meetings of Committees, and attendance at meetings.*—The Municipal Committees of Delhi, Simla and Ambala, respectively, held 66, 62 and 59 well-attended meetings, heading the list as usual. Out of 137 Municipalities 29 failed to hold the prescribed minimum number of meetings, but all the more important Committees complied with the rules. Generally speaking, the average attendance was very satisfactory. The apathy of the Ferozepore Committee continues, as no less than 11 meetings had to be postponed for want of a quorum. Attock was the only Notified Area that failed to hold a meeting, and Okara held only one meeting, but otherwise the number of meetings held by the Committees of Notified Areas was satisfactory. In Sialkot as usual the number of meetings held was considerable.

7. *Sub-Committees.*—Sub-Committees which exist in most Municipalities continue as a rule to do good work, relieving the General Committees of a good deal of routine duties. In Jullundur, during the prevalence of plague in the town, they afforded valuable assistance to the Municipal Committee and the Deputy Commissioner. There have been no complaints of excessive energy on the part of Sub-Committees this year.

8. *Irregular proceedings of Committees and proceedings overruled.*—On the whole, very few occasions arose which called for interference on the part of the Deputy Commissioner or Commissioner. The proceedings of the Rewari Committee were overruled in one case, where they wished to do away with the system of sending cheques for the countersignature of the Deputy Commissioner. In five petty cases the proceedings of the Sonepat Committee were set aside. In the Jhelum Municipal Committee a resolution permitting the resignation of the Second Master of the Board School whose dismissal had been recommended by the Inspector of Schools was overruled. No proceedings of the Gujrat Committee were set aside, but certain of them appear to have given rise to undesirable litigation. In the case of the Mooltan Division the proceedings of the several Committees had to be referred for reconsideration, and a case in the Mooltan Municipality, in which an employé who had been dismissed for embezzlement was recently re-appointed to the post he held on the octroi establishment formed the subject of correspondence with Government.

9. *Rules and by-laws framed by the Government or by Committees, and the working of the same.*—At the suggestion of Government bye-laws were introduced in all Municipalities with the object of securing prompt reports of deaths of Government pensioners resident within Municipal limits. The Election Rules of the Delhi Municipality were revised during the year. Additions and alterations to the Simla Municipal Bye-laws were notified, defining the duties of the Superintendent of Water-Works, Health Officer and Assistant Secretary and Engineer. The Kangra Municipal Committee framed a bye-law for the grant of refunds of octroi paid on articles consumed in the manufacture of country liquor in the Kangra Distillery. The Rawalpindi Committee Hackney Carriage Rules were amended and the Building Rules were revised. Building Rules under Section 92 of the Act were also framed by the Jhelum, Pind Dadan Khan and Gujrat Committees, and by the Minor Municipalities of Dera Ghazi Khan District. Rules for the regulation of vaccine operations were passed by the Gujrat Municipal Committee, and they came into force on 6th June 1901. The rules have worked satisfactorily and were well received by the people.

10. *General working of the Committees.*—With a few exceptions the working of the Committees in all the Divisions may be generally described as satisfactory. In the Gurgaon District the Municipal Committee of Farrukhnagar is said to be doing extremely well under the guidance of its Vice-President, Khan Bahadur Mir Nasir Ali Khan, Superintendent of Salt Works. The working of the Hoshiarpur Committee is also specially commended. The Deputy Commissioner of Ambala remarks that the Ambala Committee has shown less respect of persons and more sense of public duty in the past year than formerly, and that the Jagadhri Municipality is now nearly a

model among smaller and more old-fashioned Municipalities. The Ferozepore and Mooltan Committees are adversely commented on. Of the former the Deputy Commissioner writes :—" The Ferozepore Committee can hardly be said to have given satisfaction. It has frequently been complained of before, and I now have to bring to notice a strong tendency on the part of some of the members to interfere with the harmonious working of the Committee apparently out of selfish or party feelings." Of the latter it is remarked that the working has been much below the average, and it would be more satisfactory if the Committee made some endeavour to understand and dispose of business matters in hand.

No proceedings of the Lahore Municipal Committee were overruled during the year. The Deputy Commissioner of Amritsar reports that the octroi income of the Majitha Municipal Committee is smaller than it should be for a place with so large a population, and that the shortness of income is due to slackness and fraud in the management. The Deputy Commissioner has been asked by the Commissioner to report what steps he has taken to improve the management and prevent frauds.

II.—TAXATION.

11. *Imposition of new or withdrawal of old taxes.*—The levy of a house-tax in the Delhi Municipality at 3½ per cent. on annual rental was sanctioned during the year. The imposition of this tax created a good deal of opposition at first, but the excitement has now subsided, and no difficulties have arisen in connection with its collection. A revised octroi schedule for the Simla Municipality was approved of by the Punjab Government, and came into force in the current year, and a house-tax was introduced into some of the Notified Areas.

12. *Income derived from taxation.*—The total revenue derived from taxation in Municipalities and Notified Areas was Rs. 34,64,616 as against Rs. 29,53,588 (exclusive of the income of the districts of the new Frontier Province) last year, showing an increase of Rs. 5,11,028. The increase in octroi was Rs. 4,39,897, and in other taxation Rs. 71,131.

(*a*) *Income derived from octroi.*—The increase in octroi was disdributed over the different Divisions as follows (round numbers) :—

	Rs.
Delhi	1,48,900
Jullundur	53,300
Lahore	1,79,100
Rawalpindi	22,400
Mooltan	36,200

With a few trivial exceptions the income of every Municipality shows a substantial increase under octroi, and this general result is, of course, due to the bumper harvest in rabi 1901, which enabled the grain-dealers in Municipalities to replenish their stores and which, following after a period of distress, caused a general revival of trade in all directions. In a few cases, however, special causes appear to have been at work. Thus, in Delhi City, there were increases of Rs. 28,190 from octroi on *gur*, and of Rs. 12,831 from that on building material, while in Kasur the net octroi was 50 per cent. in excess of that of last year. The explanation of these increases in the case of Delhi is attributed by the Deputy Commissioner to the preparations for the coming Darbar which, in the Commissioner's opinion, is rather a remote cause. In the case of Kasur the Deputy Commissioner will be asked to see that through-trade is not being taxed. In each of the cities of Lahore and Amritsar there was an increase of more than half a lakh of rupees, due, in addition to general causes, to better control and supervision of the collecting agencies. In Ludhiana the receipts on refined sugar show an increase of Rs. 1,600 due to increased imports of bounty-fed foreign sugar, the price of which was much lower than that of local manufacture.

Since the close of the year under report the Government of India have issued general orders on the subject of octroi which will necessitate the examination of existing schedules in all Municipalities.

(*b*) *Income from taxation other than octroi.*—The figures of the past year show an increase on those of the previous year of Rs. 71,000, which occurred chiefly in the Delhi Division, the Delhi and Simla Municipalities alone accounting for over Rs. 48,500. In Delhi the increase was mainly from the tax on vehicles and the toll on thelas and carts, which were realised for six months only in the preceding year. In Simla the increase was due partly to the realisation of arrears of the water-tax, which was imposed in 1900—to which extent it was nominal,—and partly to the new tax on tongas and ekkas entering Simla, which yielded over Rs. 16,600 as against an anticipated income of Rs. 10,000.

Other increases of importance occurred in Dera Ghazi Khan and Lyallpur in the receipts of the house tax in force there.

13. *Incidence of taxation.*—In the Municipal towns proper the average incidence of taxation was Re. 1-10-6 against Re. 1-8-7 in the previous year. The incidence of octroi, Class I (Grain), only was Re. 0-13-7 against Re. 0-13-1 in 1900-01, an increase that must be expected after an abnormal harvest.

The average incidence of total octroi in the Municipal towns proper taking the Province as a whole was Re. 1-6-5 against Re. 1-5-8 in the previous year. This average was exceeded in none of the minor Municipalities, but was exceeded in 20 larger towns, the most notable exception being Simla (Rs. 5-8-4) as usual. The Commissioners of Delhi and Jullundur both point out that no satisfactory inference can be drawn from these figures of incidence, the population served bearing no necessary proportion to that of the serving centre and varying according to different articles in the octroi schedules. Among towns where taxation other than octroi exists to any noticeable extent, either together with octroi or without it, the only noteworthy cases are those of Simla (Rs. 15-6-6), Kasumpti (Rs. 8-5-8), Dalhousie (Rs. 7-4-6) and Murree (Rs. 6-0-2). The standard of taxation at these hill stations must always be exceptional.

14. *Working of Octroi Tax.*—The working of this tax is satisfactorily reported on. It continues to be collected by direct agency except in Jullundur where the octroi on vegetables and fruits is leased.

15. *Cost of collection.*—In the Delhi Division the cost of collection was only Rs. 317 in excess of last year's figures. The cost of collection in Alawalpur continues high, being 24·71 per cent. on receipts. The percentage exceeded 15 per cent. in the case of five Municipalities of the Jullundur Division, eight in the Lahore Division and four in the Mooltan Division. In all towns of the Rawalpindi Division, except the Notified Area of Shadiwal, it was less than this figure.

16. *Refunds of octroi.*—In the Delhi and Simla Municipalities of the Delhi Division the refund system appears to be on a satisfactory footing, but of the remaining Municipalities the Commissioner observes that in the matter of refunds their action continues to be erratic. What is certainly a matter for reform, is the dilatoriness of some Committees, notably Rewari, in the disposal of applications for refund, and the Commissioner should insist on steps being taken without delay to mitigate this evil as far as possible. In the Jullundur Division refunds do not appear to be given with sufficient liberality and, in the case of Ferozepore, refunds have fallen to 16·34 per cent. of the octroi receipts. No explanation of this abnormal figure is offered in the District Report, and in view of the remarks made in paragraph 16 of last year's review in regard to this Municipality, the Lieutenant-Governor is at a loss to understand this omission on the part of the Deputy Commissioner. Considering what an important centre of trade Ferozepore is, the present refund arrangements call for immediate investigation on the part of the Commissioner, and the Lieutenant-Governor will be glad to learn the result in due course. In the Municipalities

of the other Divisions there have been large increases in the amounts of refunds granted. In the case of the, Mooltan Municipality the amount has more than doubled compared with the previous year, but the Commissioner observes that however satisfactory this may seem, it is incontestable that the overtaxation of certain articles of through-trade continues and will only be met by a revision in the existing schedule and the granting of more favourable refunds.

17. *Bonded warehouses.*—The bonded warehouses at Delhi and Jullundur appear to be largely utilised. In the latter no fees are levied, and nearly 16 lakhs of rupees worth of goods were stored there during the year. In Ferozepore, the godowns of the European exporting firms are used as bonded warehouses for the storage of wheat and rape-seed only. Improved arrangements have been introduced at Amritsar, where the bonded warehouse for grain is also the principal grain market of the city and the two bonded warehouses there are largely availl ed of. Bonded warehouses are maintained, as a rule, only in the larger Municipalities; where they exist elsewhere, they are little resorted to, and the necessity for such warehouses depends on a large measure on the adequacy of refund arrangements. Where, as in Amritsar, a bonded warehouse can also be utilised as a market, much convenience is obviously afforded to the trading community.

18. *Comparison of actual taxation of dutiable articles with the standard of taxable consumption sanctioned by Government.*—In consequence of the remarks made in paragraph 18 of last year's review, special reports were, by the direction of the Government of India, called for from the Commissioners of Delhi, Jullundur and Lahore as to the extent of the apparent over-taxation in these Divisions after taking into consideration the Census figures of 1901, but the reports have not yet reached Government. Compared with the standard table of consumption there has been, during the past year, an excess of taxation in most of the Municipalities in the case of grain, sugar and oilseeds, and, to a less extent, cloth, metals and tobacco; but, as many of the tables are based on the Census figures of 1891 and others on those of 1881, they are in most cases worthless as a check on excess taxation. Moreover, it is a question as to how far they can be accepted in respect of any one year as a reliable index, having regard to the variations from year to year consequent on the fluctuations of trade and to the variations in different localities in the proportion of the outside population supplied, even in respect of the same articles. Further, where, as in the year under report, dealers store within octroi limits supplies of grain that may suffice for many years' consumption, it is obvious that the standard of consumption may be much exceeded without through-trade being necessarily taxed. At the same time where the standard has been largely exceeded for a long period it is evident that through-trade is being taxed, and there are glaring instances of this, *e.g.*, cloth in Khanpur and grain in Fazilka. It is observed that the Commissioner of Jullundur has taken up the question in regard to the Municipalities of that Division, and has called for revised tables of taxable consumption, and is also consulting with the Deputy Commissioners with the object of remedying the most obvious irregularities. The Commissioners of other Divisions are invited to adopt similar measures, and action in this respect might be conveniently taken when dealing with the revised schedules necessitated by the Government of India orders referred to in paragraph 12 (*a*) above.

PART III.—ACCOUNTS.

19. *Opening Remarks.*—The accounts dealt with in this review appertain to the Municipalities and Notified Areas of the Punjab proper (*vide* Part I, paragraph 1 *ante*), and in effecting comparisons between the two years 1900-01 and 1901-02 dealt with in this review the transactions of those Municipalities and Notified Areas forming part of the North-West Frontier Province from the 9th November 1901 have been eliminated from the accounts of both those years.

20. *Audit.*—Up to the present the accounts of Municipalities have never come within the audit of any Account Officer, but a proposal is now under consideration for the introduction of a peripatetic audit by the Accountant-General, which will, among other matters, include the examination of the securities and cash balances. The necessity for this verification in the case of Municipalities banking with private bankers in places where there is no Government Treasury was suggested in paragraph 19 of the previous year's review in alluding to the embezzlement of the Eminabad Municipal Funds by the Banker. It is satisfactory to note that there were no defalcations or embezzlements in the year 1901-02.

21. *Balances.*—The several Municipalities and Notified Areas opened the year with balances aggregating Rs. 12,67,844, *i.e.*, Rs. 11,05,892 in cash and Rs. 1,61,952 in investments, and closed with an aggregate balance of Rs. 16,12,486, *viz.*, Rs. 14,29,134 in cash and Rs. 1,83,352 in investments. The increase in the cash balances of Rs. 3,23,242 is due to the surplus of income in 1901-02 over expenditure due to various causes, the more noticeable of which are dealt with later under the appropriate heads. The increase of Rs. 21,400 under invested balance is due to fresh investments—in Simla Rs. 17,700, Murree Rs. 700, realized by the sale of land, the right of the Municipality being restricted to the use of the interest accruing thereon. The Rawalpindi Municipality invested Rs. 3,000 as the nucleus for the provision, eventually, of an eye infirmary. All investments, excepting a trifling sum in the Savings Bank, Ludhiana, are in Government Securities.

2·7 per cent. of the cash balance belonged to Notified Areas whose balances are generally insignificant, 31 being below Rs. 1,000 and 6 above Rs. 2,000 and below Rs. 4,000. The funds of 8 Notified Areas are deposited with private bankers. The Hazro Municipality in the Rawalpindi District was the only Municipality which did not bank with a Government Treasury. Its closing cash balance was Rs. 12,908. None of the Municipalities overdrew its balance, but the closing balances of the Municipalities noted in the margin fell below the prescribed minimum to the extent noted against each. The Commissioners should impress on Local Bodies the necessity for a careful check over the receipts and expenditure with a view to the prescribed minimum balance being maintained except under unavoidable circumstances which should be promptly reported. The noticeable deficiencies are due in Zafarwal and Sialkot to heavy expenditure on plague, and in the case of Hoshiarpur to large outlay on the Chos Protective Work, which having been commenced could not be abandoned. The Committee is, however, hopeful of the deficiency being restored in the current year.

	Rs.
Hoshiarpur	1,404
Jalalpur	134
Montgomery	936
Zafarwal	5,211
Sialkot	8,032
Rajanpur	336
Alipur	13
Isa Khel	396

The other Municipalities had balances in excess of the prescribed minimum, and as this excess in the case of many of these Bodies is large, it should be considered whether any surplus after providing for expenditure in emergent and necessary directions should not be invested.

22. *Debt Heads.*—Transactions on account of Government Securities, "Loans," "Sinking Fund," "Advances" and "Deposits" are compiled under this head on both sides of the account according as they represent receipts or expenditure. The receipts in 1901-02 in the above order were *nil*, Rs. 2,01,000, Rs. 1,400 (Simla). Rs. 1,300 and Rs. 9,300, aggregating Rs. 2,13,000, against Rs. 18,300, Rs. 1,61,500, Rs. 900, Rs. 7,000 and Rs. 5,600 in the previous year, aggregating Rs. 1,93,300. The expenditure in the same during 1901-02 was Rs. 21,400, Rs. 1,22,100, *nil*, Rs. 3,600 and Rs. 9,700, aggregating Rs. 1,56,800, against Rs. 16,300, Rs. 1,51,700, *nil*, Rs. 1,900 and Rs. 4,400, aggregating Rs. 1,74,300 in the previous year.

The transactions under "Loans" have been separately dealt with below. Those under "Advances" represent office imprest and miscellaneous advances. Under "Deposits" are shown securities from contractors, &c., and their refund.

23. *Loans.*—The balance of loans outstanding increased by Rs. 79,000 during the year, that being the difference between advances aggregating Rs. 2,01,000 taken by the Municipal Committees of Delhi (Rs. 16,000), Simla (Rs. 1,70,000) and Hoshiarpur (Rs. 15,000) against the loans sanctioned for water, drainage and other works in progress in these Municipalities and a total of Rs. 1,22,000 recovered from these and other Municipalities in repayment of loans advanced in the present or previous years. The loan outstanding at the end of the year against each indebted Municipality is indicated against it in the "Remarks" column of Appendix III. The purposes for which the loans were taken in previous years have been referred to in the reviews for those years. The Simla and Lahore outstandings include Rs. 50,000 and Rs. 1,39,500 due on debenture and to the Bank of Bengal respectively; all the rest were obtained from Government.

For the purposes of Government of India, Home Department, letter No. 136, dated 16th August 1898, the average surplus revenue during the past three years, the opening balance on the 1st April 1901, the surplus *revenue* on the transactions of the year 1901-02 of each indebted Committee, and the sum which it is required to pay annually in liquidation of its loan obligations is shewn in the margin. In those cases where owing to special expenditure during the year the *net revenue* of the year fell below the instalment payable, the opening balance was appropriated to meet the loan liability.

	Average surplus revenue during the years 1899-1900 to 1901-02.	*Opening balance on 1st April 1901.*	*Surplus revenue on 31st March 1902.*	*Instalment (principal and interest) for repayment of loan.*
	Rs.	Rs.	Rs.	Rs.
Delhi ...	82,200	46,900	1,48,000	64,500

24. *Revenue and Expenditure.*—The income from taxation and the cost of collection (including refunds) of the several taxes dealt with in Part II of this review equal 72·7 and 11·3 per cent. of the gross Municipal *Revenue* and *Expenditure* respectively. The residues which aggregate Rs. 13,01,000 and Rs. 39,86,000 as compared with Rs. 12,72,000 and Rs. 38,27,000 in the previous year are dealt with under the main heads in the following paragraphs:—

Realizations under Special Acts.—The total receipts under this head amounted to Rs. 34,900 against Rs. 35,100 in the previous year, of which Rs. 19,700 were realized under the Cattle Trespass Act. The cost of maintaining cattle-pounds was Rs. 7,900, or about two-fifths of the receipts from this source. Fees under the Hackney Carriages Act were levied in 10 Municipalities only. The proceeds of the Local Rate levied under the District Boards Act within the Lahore and Lyallpur Municipalities were credited as usual to the Municipal Fund. The Chaukidari Act of 1856 remained in force in 13 Notified Areas.

Revenue from property, and powers apart from taxation.—Thirty-six Municipalities derived income from the licensing of offensive and dangerous trades, 15 realized fees from bonded warehouses connected with octroi tax, and 3 levied fees on job-porters, rickshaws, &c. The receipts from these sources, with incomes derived from "Markets and Slaughter-houses," "Fines under the Municipal and other Acts," "Interest on investments" and a few other petty items, amounted to Rs. 98,000 out of a total income of Rs. 6,57,000 credited to this head. The residue is accounted for under "Rents of lands, houses, &c.," Sale-proceeds of lands, &c.," "Conservancy receipts other than taxes," and "Fees and revenue from Educational and Medical institutions."

The income from "Rents" amounted to Rs. 1,22,000, or Rs. 3,000 more than in the previous year, chiefly in Amritsar and Lyallpur. The largest share of the income was contributed by Lahore (Rs. 35,000), Simla (Rs. 25,000), Amritsar (Rs. 12,000), Delhi (Rs. 7,000) and Mooltan (Rs. 3,000). Of the remaining 94 towns which had any income from rent, 5 realized more than Rs. 2,000 and 10 more than Rs. 1,000.

The sale-proceeds of lands fell from Rs. 83,000 in 1900-01 to Rs. 38,000 in the year under report. The decrease is due to special sales during 1900-01 in the towns of Lyallpur and Bhera.

"Conservancy receipts" aggregating Rs. 1,58,000 as compared with Rs. 1,53,000 in the previous year were realized in 122 and 23 out of 137 and 46 Municipalities and Notified Areas respectively. The Municipalities indicated in the margin had no receipts from this source. The greater share of the income was obtained in the Municipalities of Amritsar (Rs. 42,000), Delhi (Rs. 18,000), Lahore (Rs. 12,000), Sialkot (Rs. 8,000), Gujranwala (Rs. 8,000), Mooltan (Rs. 6,000) and Ludhiana (Rs. 5,000); the receipts in Jullundur, Majitha, Batala, Rawalpindi and Jhang ranged from Rs. 2,000 to Rs. 3,000. Of the remainder, 7 Municipalities and 2 Notified Areas realized more than Rs. 1,000 each. It is hoped that the Municipal Committees will continue to devote their attention to this source of income which seems to be capable of development. The total revenue under this head is equal to about 24 per cent. of the total expenditure of Rs. 6,54,000 on "Conservancy (including road cleaning and watering)."

Farukhnagar, Firozpur, Karnal, Thanesar, Ladwa, Simla, Kasumpti, Kangra, Nurpur, Dalhousie, Talamba, Muzaffargarh, Dajal, Isa Khel and Kalabagh.

The Fees and Miscellaneous receipts derived from Educational and Medical institutions amounted to Rs. 2,16,000 and Rs. 25,000 against Rs. 2,11,000 and Rs. 25,000 respectively in the previous year, which added to the grants received from Government, Local Funds and other sources for Educational and Medical purposes aggregated Rs. 3,67,000 and Rs. 1,08,000 respectively, giving a percentage of 63 and 23 of the total Municipal expenditure on "Public Instruction" and "Hospitals and Dispensaries" (including "*Vaccination*"). The expenditure under these heads amounted to Rs. 5,80,000 and Rs. 4,66,000 respectively. The net Municipal expenditure on these accounts was, therefore, Rs. 2,13,000 and Rs. 3,58,000, or about 6 and 10 per cent. of the revenue from taxation alone and 5 and 8 per cent. of the total Municipal income excluding grants from Government and Local Bodies and Educational and Medical receipts. The total number of scholars on the 31st March 1902 on the rolls of Secondary Schools managed by Municipal Committees was 22,327, of whom 7,586 and 14,741 were in the Secondary and Primary stages respectively.

Grants and Contributions.—The grants for Educational and Medical purposes have been touched upon above. There only remain the grants for general purposes, which amounted to Rs. 36,000 out of a total of Rs. 2,71,000, about three-fourths of which were contributed by Government, chiefly to the Municipalities of Simla (Rs. 13,000), Kasumpti (Rs. 3,000), Lahore (Rs. 5,000), and Jullundur (Rs. 2,000). The corresponding head, *viz.*, "Contributions for general purposes" on the expenditure side of the accounts shows an outlay of Rs. 1,36,000, which consists mainly of (1) the Cantonment share of octroi collections and (2) amounts paid to Provincial Revenues in respect of Provincial properties transferred to Municipal management.

Miscellaneous.—The total revenue under the major head "Miscellaneous" aggregated Rs. 3,38,000 showing an increase of Rs. 30,000 as compared with the previous year. Recoveries on account of services rendered to private individuals amounted to Rs. 41,000 against which Rs. 17,000 are charged on the expenditure side as the "actual" cost of such work. The major portion of the receipts was realized from fees for the supervision of Kundla manufacture

in Delhi and from private individuals in certain towns for connecting their houses with main pipes. The expenditure consisted mainly in connection with the latter. The important items of income from nazul properties were Rs. 31,000 in Delhi, Rs. 9,000 in Amritsar, and from Rs. 1,000 to Rs. 2,000 in Ludhiana, Lahore and Mooltan, the total for all the Municipalities being Rs. 47,000. The cost of maintaining nazul property amounted to Rs. 9,000, or about one-fifth of the receipts. The income (subscriptions and other receipts) of the Leper Asylum at Tarn Taran was Rs. 8,000 against an expenditure of Rs. 9,000 incurred by the Amritsar Municipality in maintaining the institution. The receipts from sales of water were Rs. 72,000 derived mainly in Delhi (Rs. 27,000), Simla (Rs. 3,000) and Lahore (Rs. 40,000), and to a less extent in Ambala, Chunian and Rawalpindi. Excepting Chunian all these towns are provided with water-works. The income derived from gardens and sales of trees, grass, wood, &c., was Rs. 89,000 against Rs. 83,000 in the previous year, giving a return of 80 per cent. on the expenditure on "Arboriculture, public gardens and experimental cultivation," which amounted to Rs. 1,11,000 against Rs. 1,14,000 in 1900-01. Out of Rs. 39,000 of the receipts from and Rs. 13,000 of the expenditure on cattle, horse and other fairs, Rs. 36,000 and Rs. 11,000 appertain to the Amritsar Municipality alone. The remainder of the miscellaneous revenue includes Rs. 25,000 against Rs. 27,000 in the previous year and represents refund of money drawn for expenditure but which remained unexpended. If money is obtained only for immediate payment, and requirements are judiciously arranged for, this exaggeration of both sides of the account would be minimized, if not obviated. The practice of drawing money which cannot be immediately disbursed should be discouraged.

General Administration	16·3
Public Safety	14·6
Public Health and Convenience ...	46·8
Public Instruction	12·9
Miscellaneous, including contribution for general purposes and famine relief ...	9·4

The expenditure of the year under review amounted to Rs. 44,98,000, which was devoted to the several major heads of service in the proportion noted in the margin.

General Administration.—Refunds of, and the cost of collecting, taxes which have been noticed in Part II of this review account for 11·5 of the above-mentioned proportion under this head, leaving 4·8 as expenditure on other charges under this head, *i.e.*, "Office Establishment," "Inspection," "Honorary Magistrates' Establishments," "Survey of land" and Pensions and Gratuities."

Public Safety.—The expenditure under this head amounted to Rs. 6,58,000 against Rs. 6,52,000 in the previous year, the excess of Rs. 6,000 being due to an increase of Rs. 8,000 under the head "Fire Establishment" counterbalanced by decreases of Rs. 1,000 each under the heads "Lighting" and "Police". Out of the total charges of Rs. 11,800 on Fire Establishment Rs. 8,600 were incurred in Simla, where an organized fire brigade is maintained. The expenditure on lighting amounted to Rs. 1,03,000 and was spread over 96 Municipalities and 7 Notified Areas, and apparently there appears to be no lighting at all in 41 Municipalities and 39 Notified Areas, unless there has been some misclassification in accounts. The larger portion of the expenditure was incurred in Lahore (Rs. 25,000), Simla (Rs. 12,000), Delhi (Rs. 11,000), Amritsar (Rs. 8,000), and Mooltan (Rs. 6,000); the expenditure in Bhiwani, Rawalpindi and Gujranwala ranged between Rs. 2,000 and Rs. 3,000. Excluding these towns the average expenditure in the remaining 95 Municipalities and Notified Areas was less than Rs. 350. The expenditure on Police calls for no special remark, except that the Municipality of Lahore has, on the recommendation of a Special Committee appointed for the purpose by Government, sanctioned a scheme for increasing the Police at a cost, roundly, of Rs. 21,000 per annum. The Municipality has undertaken to contribute Rs. 10,000 annually for five years, Provincial Revenues paying the difference, subject to reconsideration at the end of that period.

Public Health and Convenience.—The expenditure charged under this head on account of "Conservancy," "Hospitals and Dispensaries," "Vaccination," "Cattle-pounds" and "Arboriculture, Public Gardens and Experimental

Cultivation " have been dealt with above in the remarks on the corresponding heads under receipts. The expenditure on " Water-supply " and " Drainage " amounted respectively to Rs. 1,37,000 and Rs. 1,39,000 under the sub-head " Capital Outlay " and Rs. 1,54,000 and Rs. 35,000 under " Establishment, Repairs, &c." The major portion of it was expended by the Delhi, Simla and Lahore Municipalities. Amritsar and Ambala spent Rs. 19,000 and Rs. 9,000 respectively. The expenditure in Jullundur, Ludhiana, Gurjranwala, Murree, Rawalpindi, Hazro and Lyallpur ranged from Rs. 2,000 to Rs. 4,000.

Simla Improvement Scheme.—The works connected with this scheme represent water and sewage extensions undertaken by the Provincial Public Works Department, the major portion of which were completed by that Department and handed over to the Municipal Committee : the remaining works are either in progress or being arranged for. The materials for sewage extension which were indented for from England have arrived, and pipe-laying has been pushed through vigorously. The construction of a Ducat filter was completed and is in working order. A great many soil receptacles and manholes were completed during the year, and the work on pipe connections to public latrines has been taken in hand.

Delhi Water and Drainage Works.—The water-works extension which was in progress in 1900-01 has been completed. The drainage works have been held in abeyance for want of funds, but the Municipality is now arranging to raise a loan for the purpose.

Lahore Water and Drainage Works.—The new pumping engine purchased in the previous year was brought into use and has worked satisfactorily. The Committee has ordered a second engine 25 per cent. more powerful.

The drainage works of the city were completed during the preceding year, and those for Anarkali which were in progress in 1900-01 were completed during the year under review. These arrangements have immeasurably improved the sanitary condition of these places. The locomotives, wagons and rails for the Conservancy Tramway were received and paid for during the year under review, resulting in an increase of Rs. 88,000 under the head Conservancy compared with the previous year's charges. Unfortunately the death of the Committee's Engineer in the middle of the year delayed the construction of the line, but it is hoped that the work will be soon resumed.

Amritsar Water-Works.—A loan of 12 lakhs applied for by the Committee having been sanctioned this year, the work will be proceeded with by the Public Works Department.

Other Water and Drainage Works.—The scheme for a water-supply and drainage for the town of Lyallpur which was being worked out in 1901-02 was recently sanctioned by Government. A loan of Rs. 70,000 was sanctioned by Government in 1901 for drainage works in Ambala, and the preparation of land plans showing land to be acquired was put in hand and the manufacture of bricks was started, but the work could not be commenced owing to the prevalence of plague in the city and its suburbs.

Public Instruction and Contributions.—The expenditure under these heads has been noticed in connection with the corresponding head under receipts.

Miscellaneous.—The expenditure under the sub-heads " Actual cost of works done for private individuals," " Nazul Charges," " Cattle, Horse and other Fairs " and " Maintenance of Lepers " has also been similarly noticed above. Of the rest of the expenditure the main portion is interest paid on loans by Municipalities amounting to Rs. 1,64,000 against Rs. 1,78,000 in 1900-01 ; the decrease is mainly due to payment of arrears in the previous year. Miscellaneous expenditure not classifiable under any of the existing heads amounted to Rs. 24,000 against Rs. 32,000 in the previous year ; the decrease is due to less expenditure on Census.

Famine Relief.—Expenditure under this head was incurred in the Hissar District only, on the construction of chhappars (thatched houses) for the poor, and amounted to Rs. 1,300.

PART IV.—GENERAL.

25. The year was chiefly marked by the outbreak of plague in several Municipalities in the Delhi, Jullundur and Lahore Divisions, the disease raging with such virulence in the town of Ludhiana that some difficulty was at one time experienced in obtaining means of conveyance of plague corpses to the burning ghâts. In the Mooltan and Rawalpindi Divisions a few sporadic cases occurred, but the disease never assumed an epidemic form. In Ludhiana there was also a severe outbreak of fever. The year was a very unhealthy one in Lahore, and the Municipal Committee have now appointed a Health Officer for that city. In the city of Amritsar plague did not appear until the close of the year, and the attitude of the people in regard to the measures then taken to combat it was satisfactory. The Lieutenant-Governor, on his visit to Jullundur in March last, took occasion to hold a Divisional Darbar at which those members of the Municipalities and other officials and non-officials who had rendered eminent service in connection with plague operations were awarded khillats, and a considerable number of sanads were also given by His Honour.

The water-works extension at Delhi was completed during the year under review, filter-beds and settling tanks having been provided to supplement the supply from wells, and improvements were also carried out in connection with the Lahore water-supply system. The city of Ambala was provided with a sewage system, and definite arrangements have at length been made for the construction of water-works at Amritsar and for the erection of a new hospital and the extension of the present drainage system in that city.

There were two or three severe outbreaks of fire at Rewari and Hidayatpur Chhaoni, but fortunately there was no loss of life. Two severe fires are also reported from Ambala City.

ORDER.—Ordered that copies of the foregoing remarks be forwarded to all Commissioners and Deputy Commissioners in the Punjab, the Secretary to Government, Punjab, Public Works Department, and be submitted to Government of India in the Home Department.

Also that the remarks and a translation of them be published in the *Punjab Government Gazette*, English and Urdu versions respectively, and that copies of the Urdu translation be supplied to Deputy Commissioners for the information of Municipal Committees.

By order of the Hon'ble the Lieutenant-Governor,

J. F. CONNOLLY,

Offg. Revenue and Finl. Secy. to Govt., Punjab.

Punjab Government Press, Lahore—1512-02—428.

1903.

Proceedings of the Hon'ble the Lieutenant-Governor of the Punjab in the Boards and Committees (Committees) Department, No. 591, dated 17th December 1903.

READ—

The Annual Municipal Report for 1902-03.

REMARKS—

PART I.—CONSTITUTION OF COMMITTEES.

1. *Establishment and abolition of Municipalities and Notified Areas.*—No new Municipalities were established and none of the existing ones abolished during the year under report. The town of Budhlada in the Hissar District was constituted a Notified Area under Punjab Government Notification No. 45, dated 3rd February 1903. The existing Notified Areas remained as before.

2. *Revision of boundaries.*—The boundaries of the Municipalities of Pathankot and Gujranwala were altered during the year in order, in the one case, to include the outlying blocks of the town on sanitary grounds, and, in the other, to include the newly-populated tracts round that town. The boundary of the Notified Area of Sangla in the Gujranwala District was also revised so as to include the whole of the town and the buildings south of the railway line there. There were no changes in the other Divisions.

3. *Changes in the system of appointing members.*—A change in the system of appointing members occurred in the Lahore Municipality, where Rule III of the Rules for the appointment of members was so amended as to reduce from 6 to 4 the number of members to be obligatorily selected from the Rais class residing and possessing property in Lahore, and to thus enable the European community to be more equitably represented on the Committee. The number of members of three of the minor Municipalities of the Lahore District was reduced during the year—at Sharakpur from 12 to 6 and at Khem Karn and Khudian from 9 to 6. This course was deemed desirable owing to the dearth of qualified men to fill the position of members of the Committee. In Simla the office of paid President was abolished on the expiry of the term of office of Mr. P. Donaldson, and the Deputy Commissioner of Simla was appointed by Government an *ex-officio* member and President of the Committee.

4. *Election and appointments to the memberships of Committees.*—There were 287 vacancies during the year amongst elected members, of which 90 only were contested, and the percentage of voters polling averaged about 60 per cent. In Delhi, Simla, Lahore and Amritsar the vacancies were filled without a contest, and, except in five or six minor Municipalities, the contests that did take place occasioned but little interest.

5. *Meetings of Committees and attendance at meetings.*—The more important Municipal Committees met much more frequently than they are required to do by rule, and the attendance was good. Delhi and Simla held 54 meetings each, Amritsar 33, and Lahore 26. Many of the minor Municipalities held less than the prescribed number of meetings, but in most cases this was due to the absence of any business for transaction. The Zira Municipal Committee was again conspicuous for its apathy, 5 meetings having to be postponed for want of a quorum.

6. *Sub-Committees.*—Sub-Committees exist in almost all the important Municipalities and are reported to have done good work and to have relieved the General Committees of a good deal of routine work. The system of appointing Sub-Committees may now be regarded as part of the ordinary Municipal administration. The system, however, requires watching, and the Commissioner of the Lahore Division remarks that he has often noticed that it would be much more satisfactory to have cases referred direct to the General Committee than to Sub-Committees, which either go too far or do nothing.

7. *Irregular proceedings of Committees and proceedings overruled.*—Very few cases occurred during the year which called for intervention on the part of the controlling authorities with the proceedings of Municipal Committees. In no case were the proceedings of any of the Municipal Committees in the Delhi Division overruled either by the Deputy Commissioner, Commissioner, or Government except in Rewari in the Gurgaon District, where, in a case of evasion of octroi duty, the Municipal Committee passed a resolution proposing to recover four times the amount of octroi properly leviable. The resolution was overruled by the Deputy Commissioner as the Committee had no power under Section 187 of the Municipal Act to compound offences, and the Committee was directed to prosecute the man criminally under the Indian Penal Code. The Deputy Commissioner also set aside another resolution of this Committee in which it proposed to grant an allowance of Rs. 10 per mensem to the Assistant Surgeon, Rewari, for medical attendance on the High School boarders. The allowance was disallowed, as the Civil Surgeon did not support the proposal. In the Karnal and Ambala Districts some resolutions passed by Committees were at the suggestion of the Deputy Commissioners reconsidered, amended or cancelled by the Committees, and the Deputy Commissioners' suggestions were in all cases promptly complied with. In the Jullundur and Lahore Divisions no cases occurred which called for interference. In the Rawalpindi and Mooltan Divisions a few decisions affecting matters of a trivial nature were set aside by the Commissioner.

8. *Rules and bye-laws framed by the Government or by Committees, and the working of the same.*—In Delhi bye-laws were framed to regulate the assessment and collection of the house tax recently imposed there. In Simla the two Vice-Presidents and the Secretary to the Committee were empowered *ex officio* and individually to compound offences against the Municipal Act. Bye-laws were framed by the Lahore Municipality for controlling the discharge of fireworks within Municipal limits, for registration of births and deaths, and for regulating the construction of *tharras* and projections. In Amritsar bye-laws were made for regulating the use of dhobi ghâts, for the working of a bonded-warehouse, and for the refund of octroi. Building bye-laws were also made, and the rules under the Hackney Carriage Act were amended. In Dalhousie bye-laws were framed for the control of butchers' shops, while the bye-law for the levy of the bazar frontage tax was amended.

9. *General working of the Committees.*—As a rule the working of Municipal Committees, especially the larger ones, has met with the approval of the local officers. The appointment of the Deputy Commissioner of Simla as an *ex-officio* member and President of the Committee, as well as the appointment of an Engineer Secretary, have had a very distinct effect in improving the administration of Municipal affairs. At the close of the year Rai Sahib Lala Murli Dhar, the well-known public spirited and popular Vice-President of the Ambala Committee, resigned his seat owing to his advancing years. He had been Vice-President for a number of years, and the Lieutenant-Governor desires to acknowledge the valuable service he rendered to the Municipality. The Rewari Municipal Committee is not well reported on, and the conduct of the members of this Committee on the outbreak of plague is noticed below. The special arrangements necessary in connection with the Coronation Darbar involved a considerable strain on the energies and resources of the Municipal Committee of Delhi, and the Lieutenant-Governor takes this opportunity of acknowledging the valuable services rendered by the members in carrying out these arrangements.

PART II.—TAXATION.

10. *Imposition of new and withdrawal of old taxes.*—A tax on thelas (carts) proposed by the Sirsa Municipality received the sanction of Government during the year. The rates of the house tax in the Fatahabad Notified Area were increased with effect from 1st October 1902. A proposal to impose a tax on vehicles within the limits of the Ambala Municipality, in order to cover a loan

for the intra-mural sewage scheme, was submitted to Government for sanction, but the proposal was subsequently abandoned. A water tax at 2 per cent. on the assessed annual value of houses in Kasumpti came into force from 1st January 1903.

11. *Income derived from taxation.*—The total revenue derived from taxation in Municipalities and Notified Areas was Rs. 32,89,000 as against Rs. 34,65,000, showing a decrease of Rs. 1,76,000. The receipts from octroi decreased by over 2½ lakhs, but there was an increase of Rs. 80,000 from other taxation, mainly in the Delhi Municipality as a result of the new house tax.

(*a*) *Income derived from octroi.*—The decrease in octroi receipts was shared by all Divisions as follows :—

	Rs.
Delhi	47,000
Jullundur	42,000
Lahore	1,33,000
Rawalpindi	18,000
Mooltan	15,000

Last year the receipts were above the average, owing to the excellent rabi harvest, while in the year under review the harvests were poor and largely account for the decrease in income. Special causes, such as plague, also affected receipts, notably in the case of the Amritsar Municipality, where receipts fell by half a lakh, due almost exclusively to the depression and disorganization of trade in consequence of the prevalence of plague in and about the town.

In the Delhi and Simla Municipalities large increases were recorded. In the former Municipality the main items of increase are under the heads Refined Sugar, Ghi and Building Materials, all of which were imported in larger quantities than usual on account of the Coronation Darbar. The increase in Simla is reported by the Deputy Commissioner to be mainly due to the introduction of the new octroi schedule, but the Commissioner would add as another cause the greater efficiency in collections consequent on the change of *régime* in Municipal government.

As explained last year, the general orders issued by the Government of India necessitated the examination of existing octroi schedules with reference to the rates in force, but action in this direction has now been postponed in consequence of the receipt of a further communication intimating that the Government of India is prepared to allow higher rates than those at first suggested.

(*b*) *Income from taxation other than octroi.*—The figures for the past year show increases on those of the previous year of Rs. 80,000 as above stated. The house tax in Delhi, which is the chief cause of this increase, is said to be unpopular and difficult to work. Direct taxation in the Simla Municipality worked smoothly. In Ambala coercive measures have constantly to be resorted to for the recovery of the water tax.

12. *Incidence of taxation.*—In the year under report the average incidence of all taxation was Re. 1-7-0 against Re. 1-8-5 in the previous year. The incidence of octroi, Class I (Grain) only, was Re. 0-12-1 against Re. 0-13-5 in 1901-02. The decrease is due to causes already explained.

The average incidence of total octroi was Re. 1-4-6 against Re. 1-6-1. The average was exceeded in 15 of the larger towns and in the minor Municipalities of the Muzaffargarh District. It is worthy of note that the incidence of total taxation in the three largest cities, Lahore, Delhi and Amritsar, is practically the same, being slightly over Rs. 2 per head. As usual the incidence of taxation is highest in the Hill Municipalities, but the standard of taxation at these hill stations must necessarily be higher than elsewhere.

13. *Working of octroi tax.*—The working of the octroi tax is again satisfactorily reported on.

14. *Cost of collection.*—With the general decrease in Municipal incomes during the year it is only natural to find a general rise in the percentage of cost of collection on income. The establishment required for collection of taxes is more or less of a fixed nature and must be maintained whether income is high or low. The cost of collection in some towns varies considerably from those of others; the cost depends so much on local conditions, such as, *e. g.*, in the case of octroi, the number of entrances to a town that have to be guarded, that it is unsafe to make comparisons in the matter. For obvious reasons the percentage of cost in the larger Municipalities is as a rule lower than in the smaller ones. In Delhi, Lahore and Amritsar the percentages are respectively 4·57, 5·14 and 6·96. The Commissioner of Lahore thinks that the Amritsar Municipal Committee might with advantage look into the question of the comparatively higher cost there. Mr. Anderson observes—

"In Octroi Establishment, as in Education and Medical Establishments, the tendency is constantly to increase. It is very difficult to resist the pressure that is brought to increase the salary of an old servant. It would probably help Committees and also Deputy Commissioners if there was a rule that no salaries should be increased without the sanction of higher authority."

This proposal should be separately referred for orders.

15. *Refunds of octroi.*—In the Delhi Division the refund system seems to be worked satisfactorily on the whole, though in certain cases delays are reported to have taken place in the disposal of applications for refund. In the Jullundur Division the Ferozepore Committee is reported to have been again conspicuously backward in the matter. In mitigation of the small amount refunded it is urged that many heavy claims for refund have disappeared as a result of declaring the premises of the leading European exporters to be "Bonded Warehouses," but the Commissioner is not satisfied that the Committee is giving anything like a fair proportion of refunds on its receipt from octroi. In Amritsar the refunds granted amounted to Rs. 58,000, or 16 per cent. of the gross income, which is a considerably higher figure than elsewhere. In Gujranwala it is said that refunds due could not be paid for want of funds, and the serious charge is made against this Committee that its accounts have not been properly kept, fictitious balances being shown when in reality the Committee owed large sums for octroi refunds. It will be seen from the extract from the letter quoted below that the general question of refunds and bonded warehouse arrangements will shortly come under consideration.

16. *Bonded warehouses.*—Except in the case of a few of the larger Municipalities bonded warehouses are little resorted to, and, as a rule, where refund rules are liberally worked there is little need for them.

17. *Comparison of actual taxation of dutiable articles with the standard of taxable consumption sanctioned by Government.*—This question has engaged the attention of Government during the year, and the following extract from a letter No. 510, dated 29th October 1903, to the Government of India in the Home Department, written in connection with the remarks made in the Review for 1900-01 as to the apparent over-taxation in certain towns of the Delhi, Jullundur and Lahore Divisions is reproduced for information:—

"* * * From a comparison of the actual figures of taxation with the maximum taxable quantities as based on the standards of average consumption and the figures of the last census, as well as from a perusal of the reports received from the local officers on the subject, the Lieutenant-Governor has come to the conclusion that over-taxation did take place in certain towns in the Divisions for 1900-01, though not indeed to the extent that might be inferred from the remarks in the review. Indeed, it seems to have been overlooked, in making these remarks, that a comparison between the actuals and standard figures is not in itself a very reliable index as to whether any undue taxation has taken place or not. I am in this connection to invite attention to the remarks made in paragraph 18 of the last year's Review of the Municipal Administration in the Punjab for 1901-02, and to point out that, in addition to the considerations there mentioned, allowance must also be made for the cases in which no refund of octroi is claimable on exports because of the period of limitation for such claims fixed under Section 143 (2) of the Punjab Municipal Act having expired, or because of the claim being barred owing to its being less than one rupee. Many officers have also expressed the opinion that the standards

of consumption fixed by this Government,—*vide* Punjab Government Resolution No. 409½, dated 11th November 1885, of which a copy was forwarded to the Government of India with Mr. Thomson's letter No. 526, dated 22nd December 1885,—and which can, at best, be but an approximation, require revision having regard to the marked rise in the standard of comfort of recent years. The comparison is not, however, without its value, as where there is any marked excess of actuals over standard figures, assuming that the latter are fairly accurate, it suggests for consideration whether in the case of Class A Municipalities the system of refunds in force or the bonded warehouse arrangements call for improvement, or, in the case of Class B Municipalities, whether it would not be desirable to transfer the Municipality to Class A or to eliminate from its schedule the article or articles in respect of which excess of taxation is, on enquiry, found to exist. To this extent the comparison has been of use in the cases now under consideration; but, as steps will be at once taken to remedy the defects that have been brought to light in these cases, and similar defects if they are found to exist elsewhere, it seems unnecessary to enter into any discussion as to the actual extent to which over-taxation may have taken place in the past in the towns referred to at the commencement of this paragraph. Revised octroi schedules are now in course of preparation for most of the Municipalities of the Province with reference to the orders contained in the Government of India (Home Department) letters Nos. 67 and 75, dated respectively the 11th and 19th April 1902, but before submitting them Deputy Commissioners and Commissioners will be directed to consider and report whether, and if so, to what extent, the standards of average consumption fixed by the Resolution of the 11th November 1885 above quoted require revision, and the Lieutenant-Governor will then be ready to sanction any alterations in these standards that may appear necessary. When this point has been disposed of, the above officers will be directed, in submitting the revised octroi schedules and tables of maxima taxable consumption, to specially report in each case on the adequacy of the refund system and bond arrangements in the case of Class A Municipalities and to suggest improvements where they seem called for; and, in the case of Class B Municipalities, to consider whether any article or articles are included in the schedule in respect of which there are good grounds for believing that through-trade is being taxed to an appreciable extent, and to advise whether such articles should be excluded from the schedule or whether the Municipality should be transferred to Class A. A special report on the same lines will also be called for in regard to those Municipalities for which revised schedules have already been sanctioned and for those, if any, in which no revision is called for, *i.e.*, those in which the Government of India orders just cited are already complied with. The attention of Commissioners and Deputy Commissioners will also be invited to the views expressed in Mr. Fenton's letter No. 551, dated 10th November 1897, to your address, on the subject of granting refunds of octroi on articles entering a Municipality in one shape and leaving it in another, and these officers will be directed to bring to notice any cases in which relief in the direction there indicated is called for. The Lieutenant-Governor hopes that material improvement in the working of the octroi system will result from these measures. His Honour is well aware of the importance attached by the Government of India to the protection of through-trade, and the matter is one that will continue to receive his constant attention."

The Lieutenant-Governor has little doubt the standard of comfort in Municipalities has risen considerably of recent years, and that the standards of consumption fixed in Punjab Government Notification No. 409½, dated 11th November 1885, on which the tables of maximum consumption are based, are now out of date. In accordance with the intimation conveyed to the Government of India Commissioners have now been called upon to submit proposals for their revision, and when the revised tables have been sanctioned Commissioners will be directed to take action as indicated in the extract above quoted.

PART III.—ACCOUNTS.

18. *Audit.*—As stated in paragraph 20 of the Review for the year 1901-02, the system of central audit introduced from April 1900 was found to be inadequate, and proposals for the substitution of a peripatetic audit on the lines of the system in force in the United Provinces of Agra and Oudh have recently been submitted to the Government of India.

19. *Balances.*—The balances of the several Municipalities and Notified Areas at the beginning of the year 1902-03 aggregated Rs. 16,12,000, *viz.*, Rs. 14,29,000 in cash and Rs. 1,83,000 in investments; at the end

of the year they aggregated Rs. 17,98,000, *viz.*, Rs. 14,83,000 and Rs. 3,15,000, showing an increase of Rs. 54,000 and Rs. 1,32,000 respectively. The increase in cash balance calls for no comment, and that in invested balance is on account of fresh investments amounting to Rs. 1,77,000 as detailed in the margin counterbalanced by sale of securities of the value of Rs. 45,000 by the Municipal Committees of Hissar (Rs. 10,000) and Simla (Rs. 35,000). Of the investments made by the Delhi Municipality, Rs. 1,50,000 are set aside for an electric light fund in case the company that now holds the contract for electric lighting wish at any time to give it up, and the remaining Rs. 18,000 for a Primary School building. The latter sum is, however, not a new investment. It was originally invested in 1894-95 for the same object and was withdrawn for expenditure in 1900-01, but as the site selected did not meet with approval the money was re-invested pending the selection of a more suitable site. The investment made by the Murree Municipality was obligatory as it represents the sale of nazul land, but in the case of the Pindigheb Municipality and the Attock Notified Area the investments were optional, being surplus to the working balance. The balances of some of the Municipalities fell below the minimum prescribed by Government, but none of the Municipalities and Notified Areas overdrew its balance during the year. Steps should be taken by the Committees concerned to bring their balances up to the prescribed limit during the current year. On the other hand, there are some Municipalities whose balances are largely in excess of the prescribed minimum and of outstanding liabilities. In such cases Commissioners should impress on the Committees concerned the advisability of investing such surpluses as are not required for immediate expenditure. It is satisfactory to note that there were no embezzlements of Municipal Funds during the year.

	Rs.
Delhi	1,68,000
Murree	1,000
Pindigheb	5,000
Attock	3,000

20. *Debt Head.*—The only noticeable transactions under this head relate to loans. The balance of loans to Municipalities outstanding on the 31st March 1903 is more than the previous year by Rs. 4,36,000. This represents the difference between loans aggregating Rs. 6,13,000 taken up during the year by the Municipal Committees of Delhi (Rs. 10,000), Ambala (Rs. 33,000), Simla (Rs. 54,000), Lahore (Rs. 3,00,000) and Amritsar (Rs. 2,16,000) for water, drainage and other works in progress in those Municipalities and a total of Rs. 1,77,000 repaid by Delhi (Rs. 25,000), Ambala (Rs. 1,000), Simla (Rs. 74,000), Hoshiarpur (Rs. 1,000), Ludhiana (Rs. 3,000), Lahore (Rs. 55,000), Dalhousie (Rs. 2,000), Murree (Rs. 2,000) and Dera Ghazi Khan (Rs. 14,000) in respect of loans taken up in previous years. The amount of loan remaining due at the end of the year by each indebted Municipality is shown in Statement III. The purposes for which the several sums were borrowed have been given in previous reviews. The outstandings in Simla and Lahore include Rs. 2,300 and Rs. 4,28,000 on loans raised on debenture and from the Bank of Bengal respectively. The rest of the loans were taken from Government. The statement on the margin shows that the financial condition of each indebted Municipality on 31st March 1903 was satisfactory. With the exception of the Hoshiarpur and Ludhiana Municipalities, the closing cash balance in every case was in excess of the prescribed minimum.

Municipality.	Receipts.	Closing balance.	
		Cash.	Investments.
	Rs.	Rs.	Rs.
Delhi	9,04,000	1,06,000	1,68,000
Ambala	89,000	19,000	...
Simla	5,25,000	81,000	18,000
Ludhiana	98,000	9,000	34,000
Hoshiarpur	44,000	4,000	2,000
Lahore	8,88,000	2,46,000	...
Amritsar	7,56,000	1,80,000	...
Dalhousie	21,000	18,000	...
Murree	49,000	14,000	4,000
Dera Ghazi Khan	71,000	20,000	...

21. *Revenue and Expenditure.*—The total income and expenditure of the Municipalities and Notified Areas exclusive of *Debt Head Transactions* amounted to Rs. 49,39,000 and Rs. 51,92,000 against Rs. 47,65,000 and Rs. 44,98,000 respectively in the preceding year. The causes of variations under the main heads are alluded to in the following paragraphs.

22. *Municipal Rates and Taxes.*—The income from taxation as compared with that of the previous year shows a decrease of Rs. 1,76,000 due to the causes explained in Part II of this Review.

23. *Realizations under Special Acts.*—The total realizations amounted to Rs. 49,000 against Rs. 35,000 in the previous year. The major portion of the receipts were collected under the provisions of the Cattle Trespass Act and the Hackney Carriages Act. The increased income was chiefly contributed by the Delhi Municipality owing to the large number of licenses for carriages during the Coronation Darbar and also to an enhanced license fee having been fixed during that period.

24. *Revenue derived from Municipal property and powers apart from taxation.*—The total income under this head amounted to Rs. 9,25,000 against Rs. 6,57,000, showing an increase of Rs. 2,68,000. The increased income was derived mainly from the *Sale proceeds of land and produce of land* (Rs. 2,36,000) by larger sales of properties in the towns of Delhi, Amritsar, Sangla, Lyallpur, Jalalpur, Lahore and Kalabagh. The sale to the East Indian Railway Company in Delhi Municipality of one property alone called "More Serai" realized Rs. 1,65,000. The remaining increase occurred under the following sub-heads partly counterbalanced under others :—

(1) *Rents of lands and houses, &c.*—The increase of Rs. 21,000 under this head is due to better receipts in several towns, chiefly in Lahore (Rs. 5,000), Lyallpur (Rs. 3,000), and Sangla (Rs. 2,000), and also on account of recovery in advance by the Simla Municipality of a rent of Rs. 5,000 due for the first quarter of 1903-04.

(2) *Conservancy receipts* amounted to Rs. 1,70,000 against Rs. 1,58,000 in the preceding year. The increase is due to better receipts in the Sialkot town, where the income more than doubled itself as a result of larger demands for manure and refuse for baking bricks.

(3) *Fees and revenue from markets and slaughter-houses* rose from Rs. 57,000 to Rs. 68,000 during the year under report. This improvement is due to larger income in Delhi on account of the greater demand for land in front of shops during the Coronation Darbar and to the rents of stalls, &c., in Simla for the 1st quarter of 1903-04 having been recovered by the Municipality in advance.

(4) *Receipts from Educational Institutions* amounted to Rs. 2,18,000 against Rs. 2,16,000 in the previous year, which, added to the grants received from Government, Local Funds and other sources for Educational purposes, aggregated Rs. 3,63,000 as compared with Rs. 3,67,000 in 1901-02.

(5) *Medical receipts* fell from Rs. 25,000 to Rs. 11,000. This decrease is due mainly to the fall of Rs. 13,000 in the income of the Ripon Hospital, Simla, on account of the opening of the "Walker Hospital" and the transfer to that institution of the European paying-patients. On the other hand, there was an increase of Rs. 9,000 on the previous year's receipts from grants and contributions from Government, Local Funds and private persons for Medical purposes which reduced the net decrease under this head to Rs. 5,000 only.

The income from other sources, *viz.*, *Other Fees*, *Fines under Municipal and other Acts* and *Interest on investme nts*, &c., amounted to Rs. 41,000, which about equals the realizations in the preceding year.

25. *Grants and Contributions.*—Out of a total grant under this head of Rs. 2,82,000 those for Educational and Medical purposes have been accounted for in the preceding paragraphs. The grants for general purposes which now remain to be dealt with amounted to Rs. 46,000, Rs. 36,000, or about four-fifths, of which were contributed by Government, against Rs. 27,000 in the previous year. This increase represents Government aid towards the purchase of appliances for the Fire Brigade at Simla and for the construction of new Police Stations at Mozang and Naulakha in Lahore.

26. *Miscellaneous.*—The total receipts under this head amounted to Rs. 3,94,000 against Rs. 3,38,000 in the previous year. The recoveries on account of services rendered to private individuals do not much vary from those in the preceding year. The income from *nazul* properties rose from Rs. 47,000 to Rs. 73,000 during the year under report on account of new leases during the Coronation Darbar at Delhi and increased rents realized on that occasion. The income (subscription and other receipts) of the Leper Asylum at Tarn Taran amounted to Rs. 6,500 against Rs. 7,800 in the preceding year, the decrease being due to a reduction in the number of inmates. From *Sales of water* the receipts were Rs. 15,000 better than those of the previous year and were derived chiefly in Delhi (Rs. 10,000) due again to the Coronation Darbar. The income from cattle, horse and other fairs showed an improvement of Rs. 6,000, which represents the net income of the Thanesar Sun Eclipse Fair. The remainder of the Miscellaneous income includes Rs. 26,000 on account of refunds of amounts drawn but not expended, and which unduly exaggerate the transactions on both sides of the account. This matter was also noticed in paragraph 24 of the previous year's Review. Commissioners should impress on the Municipal Committees the necessity of limiting their drawings to actual requirements.

27. The total expenditure incurred from Municipal Funds during the year under review amounted to Rs. 51,92,000 against Rs. 44,98,000 in 1901-02 as stated in paragraph 21 *ante*. The causes of the variations are explained below under the heads concerned.

28. *General Administration and Collection Charges.*—The expenditure under this head amounted to Rs. 6,93,000 against Rs. 7,35,000 in the previous year. It includes the cost of collecting, and refunds of, taxes which have already been dealt with in Part II of this Review.

29. *Public Safety.*—There was an increase of Rs. 58,000 in the expenditure on this account as compared with the preceding year, the outlay on (1) *Fire Establishment*, (2) *Lighting*, and (3) *Police*, respectively, being Rs. 5,000, Rs. 21,000, and Rs. 32,000 higher, chiefly due (1) to the purchase of appliances for the Fire Brigade in Simla and of a fire engine in Batala, (2) to the increase of kerosine oil lamps during the Coronation Darbar and the installation of electric lighting in Delhi, and (3) to the construction of a house for the City Superintendent of Police, Delhi, and of new Police Stations in Lahore, Mooltan and Jalalpur, and to an increase in the strength of the Police establishment in Lahore.

30. *Public Health and Convenience.*—The expenditure charged to this head amounted to Rs. 27,36,000 against Rs. 21,05,000 in the preceding year. The increase of Rs. 6,31,000 falls chiefly under (1) Water-supply (Rs. 3,29,000), (2) Drainage (Rs. 1,19,000), (3) Hospitals and Dispensaries (Rs. 1,10,000), (4) Public Works (Rs. 91,000), (5) Markets and Slaughter-houses (Rs. 16,000), and (6) Arboriculture (Rs. 10,000), partly counterbalanced by a decrease of Rs. 46,000 under the sub-head "Conservancy." The excess under water-supply is due to the construction of water-works at Amritsar and Lyallpur and to the improvements of water-supply in Lahore, and that under drainage is on account of large outlay on drains in Lyallpur, Delhi, Ambala and Chunian. The increased expenditure under Hospitals, &c., is mainly due to heavy plague charges incurred in plague-infected towns, to the construction of the new Victoria Jubilee

Hospital at Amritsar, and to improvements to certain Dispensary buildings. The main portion of the increased expenditure on Public Works was incurred by the Delhi Municipality on account of the appointment of a Municipal Engineer, repairs to the Town Hall and reflooring it with marble, repairs to the Municipal Workshop, the building of new godowns, and also to extensive repairs to roads consequent on the Coronation Darbar. In the cases of "Markets and Slaughter-houses" and "Gardens" Delhi also took the lead, having spent a large amount on roofing part of the slaughter-house and on improvements to the fountains in the Queen's Gardens and to repairs to the pavilion in the Roshanara Garden.

31. *Public Instruction.*—The total expenditure on this account from Municipal Funds during the year 1902-03 was Rs. 5,95,000 against Rs. 5,80,000, or Rs. 15,000 more than in the previous year. The increase is due partly to the construction of boarding-houses at Rewari and partly to petty repairs to, and the purchase of furniture for, certain school buildings, as also to increases in the school establishments.

The total number of scholars on the rolls of the Secondary Schools managed by Municipal Committees on the 31st March 1903 was 21,807, or 520 less than in the previous year. The number at the Secondary stage of instruction has risen from 7,586 to 7,607, or by 21, and that at the Primary stage has diminished from 14,741 to 14,200, or by 541, the school attendance having been affected in schools situated in plague-infected areas.

32. *Contributions.*—The expenditure amounted to Rs. 1,27,000 against Rs. 1,36,000 in the year 1901-02. The decrease is mainly due to the postponement of the payment by certain Municipal Committees of the contribution in respect of certain localized provincial properties, as the proposals for the revision of contributions payable for the quinquennial period commencing with 1902-03 were then under consideration.

33. *Miscellaneous.*—The expenditure charged under this head amounted to Rs. 3,25,000 against Rs. 2,84,000 in the previous year. The difference is chiefly due to the payment of more interest consequent on an increase in the loans raised, and to certain special expenditure incurred during the year under review in connection with the Coronation celebrations.

PART IV.—GENERAL.

34. Plague was again very prevalent in many of the Municipalities of the Delhi, Jullundur and Lahore Divisions, but the disease only appeared in two Municipalities of the Rawalpindi Division and in three in the Mooltan Division. In Rewari the outbreak was very severe and there was considerable opposition to any measures being taken to check the disease. It created a panic, which resulted in five-sixths of the population leaving the town and spreading over the country, in many cases carrying the infection with them to parts that had before escaped. The members of the Committee as a rule behaved very badly, but the Tahsildar who had to be removed set them a bad example in this respect. In the Ambala District the epidemic was much less virulent than in the preceding year except in Buriya; the attitude of the people was reasonable, and the conduct of the members of the Committee, with a few exceptions, satisfactory. In addition to inoculation, dessication of houses was also resorted to, and was appreciated by the people to a certain extent in the towns of Ambala and Jagadhri. In the Jullundur District members of Municipal Committees rendered practically no assistance in the plague inoculation campaign. To the Khatris, Banias, Mahajans and similar classes, inoculation was anathema. In Fazilka, where there was a severe outbreak, the well-to-do inhabitants are reported to have immediately fled; the poorer classes only remaining, amongst whom the mortality is shown to have been great. The Deputy Commissioner observes that had the members encamped outside the town, much would have been done to stay the general panic and induce the people to accept plague measures.

With the exception of plague, no other serious epidemic appeared anywhere, and the health of the Municipal towns was generally good.

35. The survey portion of the Hansi Drainage Scheme has been completed, and the matter is now pending with the Sanitary Engineer, Punjab. The extra-mural portion of the Ambala City Drainage Scheme has also been

completed. Estimates for the intra-mural portion of the scheme prepared by the Sanitary Engineer and amounting to Rs. 58,000 odd have been received, and the Municipal Committee is endeavouring to finance a portion of the cost, leaving the remainder to be met out of current expenditure or as funds may become available. A proposal for starting a sewage farm owned and managed by the Municipal Committee in order to utilize the sullage water to the best advantage, which was under the consideration of the Committee on the recommendation of the Sanitary Board, Punjab, has been dropped for the present for want of funds. The question of the Delhi Municipality raising a loan of Rs. 5,46,000 in the local market for the completion of the Delhi Intra-mural Drainage is still under the consideration of the Committee. In the meantime steady progress is being made in the execution of the project, the cost being met out of current revenue. The schemes for the drainage of Gujrat and Rawalpindi towns are still under consideration. A scheme for the drainage of Hazro town is also said to be under preparation.

36. The Delhi Water-Works are now completed, and the city is adequately supplied with pure water, but when the extensions of mains are made to the suburbs it will probably be necessary to increase the pumping plant at the head-works. The matter of improving the present water-supply in Simla is at present engaging the attention of the Local Government. In Ambala the water-supply was very much diminished owing to the low yield of water at the head-works, so much so that the supply to the North-Western Railway had to be cut off, the Railway bringing their supply of water daily in tank trucks from Rajpura. It is proposed to increase the supply by the construction of four additional wells. The necessity of the work is due principally to demands other than those of the town. The water-supply at Kalka entirely failed last year, and improvements are being carried out by the Kalka-Simla Railway Company. It is expected that the new project will be in working order in October next. The construction of the Amritsar Water-Works has made considerable progress during the year, and a new hospital is also in course of erection.

37. There were 11 actual cases of fire at Simla, or 4 more than in the previous year, resulting in serious damages in 2 cases only, the greatest being on the occasion of the fire which occurred on the 10th July 1902, when the Commercial Buildings and Northbrook Terrace occupied principally by European firms were almost entirely destroyed. The total loss by fire during the year at Simla is estimated at about 6 lakhs. The Fire Brigade was requisitioned in all these cases and did good work. A severe fire broke out in the town of Pind Dadan Khan, which reduced some 80 houses to ashes. Two fires—one at Hissar and the other at Bhiwani—occurred during the year, both in connection with cotton factories. The latter fire was a serious one, several women having lost their lives in it and formed the subject of a special report to Government. A fire broke out in the mohalla of sweepers at Hidayatpur Chhaoni Notified Area in the Gurgaon District. Fortunately there was no loss of life.

38. The importance of the city of Delhi as a railway centre is steadily on the increase, and the Agra-Delhi Chord Railway construction is being vigorously pushed on. The installation of electric lighting and the opening of the "Clarke Road" through the Queen's Gardens were amongst the more important events with which the Committee was concerned during the year.

ORDER.—Ordered that copies of the foregoing Remarks be forwarded to all Commissioners and Deputy Commissioners in the Punjab, the Secretary to Government, Punjab, Public Works Department, and be submitted to the Government of India in the Home Department.

Also that the Remarks and a translation of them be published in the *Punjab Government Gazette*, English and Urdu versions respectively, and that copies of the Urdu translation be supplied to Deputy Commissioners for the information of Municipal Committees.

By order of the Hon'ble the Lieutenant-Governor,

J. F. CONNOLLY,

Offg. Revenue and Finl. Secy. to Govt., Punjab.

Punjab Government Press, Lahore—17-12-03—409.

ABSTRACT OF FORM NO. I OF THE MUNICIPAL FUND RETURNS FOR 1902-03.

Particulars.		
Number of Municipalities and Notified Areas under Act XX of 1891.		184
Population within Municipal limits and Notified Areas		2,284,384
Number of towns of which the Municipal Committees are appointed by election only.		*Nil.*
Number of towns of which the Municipal Committees are appointed partly by election and partly by nomination.		109
Number of towns of which the Municipal Committees are appointed by nomination only.		74
Number of towns in which the Deputy Commissioner administers the Municipal Funds.		1
Aggregate number of members of Municipal Committees—		
Ex-officio	306	
Nominated	566	1,662
Elected	790	
Of the above—		
Officials		352
Non-officials		1,310
Europeans		119
Natives		1,543

REPORT

ON THE

WORKING OF MUNICIPALITIES

IN THE

PUNJAB

LIBRARY
OF THE
BOMBAY
BRANCH
OF THE
ROYAL ASIATIC SOCIETY

DURING THE YEAR

1903-04.

Lahore:
PRINTED AT THE PUNJAB GOVERNMENT PRESS,
1904.

Proceedings of the Hon'ble the Lieutenant-Governor of the Punjab in the Boards and Committees (Committees) Department, No. 684, dated 1st December 1904.

READ—

The Annual Municipal Reports for 1903-04.

REMARKS—

PART I.—CONSTITUTION OF COMMITTEES.

(*a*) *New Municipalities established and old Municipalities abolished.*—Mianwali has been constituted a second class Municipality during the year under report, and Gojra in the Jhang District has been declared a Notified Area, represented by 4 members. No other changes have occurred.

(*b*) *Revision of boundaries.*—The boundaries of the Leiah Municipality were extended during the year with a view to the inclusion of recent extensions of the town within octroi limits. Otherwise all boundaries have remained the same.

(*c*) *Changes effected in the system of appointing members and reasons for the same.*—Nomination has been substituted for election in the Municipalities of Bhiwani and Sahiwal. The constitution of the Sujanpur (Gurdaspur) Committee was changed in order to equalise the number of Hindu and Muhammadan representatives. The rental qualifications of voters was raised in Amritsar proper.

(*d*) *Election and appointment of new members.*—Two hundred and seventy-nine vacancies in elective seats occurred during the year; 175 old members secured re-election, and 76 seats were filled by new candidates. The remaining 28 seats were either left unfilled owing to the occurrence of the vacancy at the close of the year or were filled by nomination. Although 309 candidates (excluding those for the Jullundur Division, for which figures are not available) were nominated for the vacant seats, only 95 contests actually took place throughout the province. It is commoner by far for a nominee, especially in the case of a new candidate, to retire than to complete his candidature. These figures bear out the conclusion of the Commissioner of Lahore, who remarks that "The men who aspire to be on the Committee can easily obtain and retain their seats . . . Many gentlemen who would be useful members decline to stand where there is likely to be a contest, as it is unfortunately too common for discreditable practices to be resorted to. There is generally competition to be a 'sirkari' member." The Commissioner of Rawalpindi dealing with the same question writes, "The elective system . . . as a rule . . . does not attract men of good class . . . . and as long as it remains in force nothing can finally be done to improve matters. People of the class of butchers, petition-writers and petty shop-keepers do not make good members, and their election stands in the way of others becoming candidates." On the other hand a fair proportion of voters polled at the actual contests that took place. Though the percentage of voters was as low as 27 and 24 per cent. in the Municipalities of Nurmahal and Nawashahr in the Jullundur Division and fell to 4 per cent. at Batala in the Gurdaspur District, it averaged 67 per cent. in the elections of the Delhi Division, 58 per cent. in Lahore, 63 per cent. in Rawalpindi, and 79 per cent. in Multan. It is difficult, however, to say how far such figures indicate a wholesome rivalry and how far they are the result of "discreditable practices." Large sums of money are said to have been spent by the rival candidates at Sialkot, and in Jhelum one person was prosecuted and convicted of attempting to vote by personation.

(*e*) *Notice of any disproportion between the number of ex-officio and nominated members on the one hand and elected members on the other.*—Eight elective seats are reported to have been filled by nomination owing to the lack of candidates during the year; the Lahore report in silent on the point. Changes have consequently been entailed in the proportionate number of seats held by elected and nominated members in Ballabgarh, Kaithal and other Municipalities.

(*f*) *Meetings, general and special, of the General Committee and attendance at the same.*—The number of meetings held and the attendance of members thereat has on the whole been satisfactory during the year under report. The Committees of Simla, Delhi and Zafarwal met 56, 52 and 51 times respectively. The Ambala Committee met 48 times and that of Multan 35. Amritsar and Mukerian had 29 and 28 meetings respectively, Lahore and Machiwara 23, Murree and Rawalpindi 22 and Una 20 meetings. On the other hand His Honour regrets to notice that no less than 28 Committees failed to hold the prescribed number of meetings. In many of the minor Municipalities the prevalence of plague and the absence of business is pleaded as an excuse, but it can only be due to the apathy of the members that 3 meetings of the Ferozepore Municipality had to be adjourned for lack of a quorum. The Notified Areas of Shadiwal and Shahpur Civil Station held no meetings during the year under report, while that of Ramdas held 1 only. The Commissioner of Lahore observes that there seems to be no necessity for the strict enforcement of Section 19 of the Municipal Act in the case of some of the minor towns or of the Notified Areas in the absence of any business for transaction. As regards towns the law is clear, and its demands are, in His Honour's opinion, not unreasonable. But the section does not require any definite number of meetings of the Committees of Notified Areas as it has not hitherto been extended to any of these areas.

(*g*) *General working of the Committees, &c.*—Sub-Committees are now generally in operation, and they are reported to have relieved the General Committee of much routine work. In the Lahore Municipality, however, it is noticed that valuable time is lost by relegating to them business which ought to be disposed of by the General Committee itself. The same point was noticed in paragraph 6 of last year's review with special reference to Lahore, and Commissioners should exercise a careful supervision to see that Sub-Committees are not used as a means of shelving a case or in order to transfer the responsibility of a disageeable decision.

The Lieutenant-Governor is inclined to question the wisdom of the system in force in Murree by which one member of the Forest Sub-Committee has in rotation to select and mark trees that have to be felled for fuel or timber. The working of valuable forests requires more expert management than is likely to be attained by this system, and the Commissioner of the Division should consider whether some improvement cannot be effected.

The proceedings of Committees were overruled in 11 cases during the year. None of the cases call for any special notice.

Generally speaking the working of the Committees for the year is reported to be satisfactory, but there are many exceptions, in which the members are said to be actuated by party feeling rather than by public spirit, while the management of the Sadhaura, Tanda, Shahabad and Palwal Committees is very adversely criticized.

The Lieutenant-Governor welcomes an improved report of the working of the Rewari Municipality, and is glad to observe the favourable notice of Mir Nasir Ali Khan and Lala Ramji Das, members of the Farukhnagar Committee. He regrets to observe the unfavourable comments passed on the Lahore Municipality, and would be glad if the Commissioner will give the matter his continued attention and, if necessary, report to Government separately on the matter.

(*h*) *Rules framed by Government or by the Committee* —Bye-laws regarding the collection and refund of octroi were framed during the year in Delhi, Leiah, Rawalpindi, Pind Dadan Khan and all Committees of the Hoshiarpur District; Delhi, Simla, Jhajjar, Bahadurgarh, Gohana and Hidayatpur Chhaoni passed bye-laws dealing with slaughter houses and the sale of meat. In Jullundur the Conservancy Darogha was invested with the powers of a Police Officer under Section 34 of Act V of 1861. Building bye-laws were passed in Kangra. A number of bye-laws have been passed and others are under consideration in the newly constituted Municipality of Mianwali.

The Simla Municipality also passed bye-laws dealing with the water-supply and vaccination.

PART II.

(*a*) *Imposition of new and withdrawal of old taxes.*—The only changes in the year occurred in the Delhi Division, where the house-tax levied in Bhiwani Municipality was discontinued and sanction given to the levy of a house-tax in the Ambala Municipality in lieu of the existing water-tax which, as noticed last year, never worked smoothly. The rates of the house-tax levied in the Budhlada Notified Area have been raised to figures varying from Rs. 15 to annas 8 per annum according to the means of the owner.

The revision of the octroi schedules of all Municipalities has been held in abeyance pending the decision of the Government of India as to the maximum rates to be levied on the various classes of commodities.

(*b*) *Total income from taxation.*—The total income derived from rates and taxes in all the Municipal and Notified Areas during the year amounted to Rs. 34,44,000, showing an increase of Rs. 1,55,000 over last year's collections. Collections from octroi amounted to Rs. 30,44,000, and accounted for almost the whole of this increase, though there were also substantial increases in the returns of house-tax. The profits of water-tax and tolls on roads and ferries declined.

The reaction after the inflated figures of the Darbar year accounts for a fall of Rs. 36,000 in the octroi income of Delhi; while the scare of plague and the partial desertion of the city consequent upon it is said to explain a similar decline of Rs. 34,000 in Rawalpindi. The octroi recoveries of Amritsar, Simla and Lahore increased by Rs. 47,000, Rs. 30,000 and Rs. 28,000 (in round figures) respectively; these increases were mainly due to good harvests and improved administration.

(*c*) *Examination of the average incidence of total taxation on the town population.*—The average incidence of all taxation was Re. 1-8-0 against Re. 1-7-0 in the previous year. That for octroi Class I (grain) only was Re. 0-12-10 as against Re 0-12-1 and of total octroi Re. 1-5-6 against Rs. 1-4-6 recorded last year.

The incidence of total taxation in Delhi declined from Rs 2-1-4 to Re. 1-15-6, but in Amritsar and Lahore it rose to Rs 2-6-10 and Rs. 2-8 3 respectively. In Simla it stood at Rs. 11-2-10, in Kasumpti at Rs. 20-1-2, in Dalhousie at Rs. 8-8-0 and in Murree at Rs. 6-6-0. These figures all show increases on those of last year. The general upward tendency suggests that the population is able to bear more than the prescribed standard of Re. 1 per head without difficulty.

(*d*) *Notice of any facts of special importance connected with the working of taxes other than octroi.*—From Delhi it is reported that the tax-payers have become accustomed to the house-tax which was so unpopular at its first institution. Direct taxation is seldom popular, but no special difficulties calling for note have occurred in the year.

(*e*) *Working of the octroi tax, &c.*—The general working of the octroi tax is again reported to have been satisfactory. The question of collection is receiving especial attention in Lahore and Sialkot, where considerable room for improvement existed ; the causes of the more noticeable increases and decreases and the question of the revision of schedules have already been noticed. The cost of collection varies roughly in an inverse ratio with the proceeds of the tax. It varied in the year under report from 53 and 45 per cent. in the Notified Areas of Shadiwal and Ramdas, and 31 per cent in the Municipalities of Jhelum to Rs. 5-2-1 per cent. in Delhi and Rs 4-2-10 per cent. in Lahore. It is satisfactory to note that both in Lahore and Amritsar the cost of collection has declined in the year.

The question of refunds has received attention in most Municipalities where the system is in force, although the general overhauling of the system is deferred until the revision of the octroi schedules is complete. Faridabad and Sonepat have framed refund rules during the year, and the rules of the Delhi Municipality, which refunded a percentage of Rs. 4-11-4 on the gross realisation, were revised. The Hoshiarpur Municipality refunded only 2·95 per cent. and was apparently unable to meet its claims. The Deputy Commissioner is insisting on closer attention to the matter. Ferozepore is again unfavourably noticed, and the refunds amounted to only 1·20 per cent. of the gross recoveries.

In Amritsar, the great centre of through trade, the refunds amounted to 14 per cent., and claims amounting to Rs. 4,465 only were left pending at the close of the year as against 13,315 claims disposed of. The working of the Gujranwala Committee has improved in this matter in the year under report, but is not yet above reproach.

The operations of the bonded warehouses call for no special remark. In many places traders prefer to store their goods in private warehouses outside Municipal limits in order to avoid demands for rent and in some cases to secure better facilities for gambling on their goods.

The incidence of net octroi collections per head of town population and per head of town population *plus* accepted estimates of additional consumers has been noticed only in the Delhi and Multan divisional reports. Here it varied from Rs. 2-13-11 and Rs. 2-0-10 respectively in Dera Ghazi Khan, and Re. 1-11-7 and Re. 1-10-6 and Re. 1-9-9 and Re. 1-7-2 in Multan and Ambala to Re. 0-6-2 and Re. 0-3-2 respectively in Talamba. The case of Simla, which is exceptional, has been excluded from the comparison.

In the Simla Municipality the standard consumption has largely increased in a variety of commodities. The higher scale of consumption was made applicable to the town shortly after the close of the year, so the departure from the normal should be less marked in the current year's report.

Throughout the province there are large excesses over the Government standards of consumption in a great variety of commodities, while there are also many deficiencies indicating leakage of dutiable commodities. Although the increases may be explained by special causes in isolated cases as in Delhi, where the increase in metals is said to be largely due to the supersession of the old earthen plates by enamelled iron ware, there is a consensus of opinion that the standards of consumption require to be raised owing to the increased prosperity of the province and to be applied to the most recent figures of population. The Lieutenant-Governor, however, has no doubt that even when this revision is effected there will remain many cases of excess, pointing to taxation of through trade. The latter cannot, however, be really checked until more reliable data of consumption are provided. The questions are intimately associated, and will be considered in connexion with the revision of the octroi schedules.

PART III.—ACCOUNTS.

Audit.—The system of peripatetic audit referred to in paragraph 18 of the previous year's review was sanctioned in June last, and is being applied with effect from the accounts for the year under review under the orders contained in Punjab Government, Financial Department, Resolution No. 836 S., dated 8th July 1904.

Balances.—The Municipalities and Notified Areas in the Punjab opened the year with balances aggregating Rs. 17,98,000, namely, Rs. 14,83,000 in cash and Rs. 3,15,000 in investments, and closed with an aggregate balance of Rs. 19,48,000 (Rs. 16,10,000 in cash and Rs. 3,38,000 in investments). The main causes of the increase of Rs. 1,27,000 in cash balances are dealt with later. The balances of some of the Municipalities and Notified Areas fell below the prescribed minimum, chiefly owing to plague.

Debt Heads.—The entries which call for notice under "Debt transactions" of Municipalities are confined to "Loans." The balance of loans outstanding on 31st March 1904 aggregated Rs. 49,23,000 against Rs. 44,53,000 on 31st March 1903. The increase of Rs. 4,70,000 represents the difference between the advances (Rs. 6,58,000) taken up during the year by certain Municipal Committees against sanctioned loans and the recoveries (Rs. 1,88,000) made in repayment of loans advanced in previous years. The loans outstanding at the end of the year against each indebted Municipality are as usual indicated against it in the remarks column of Appendix III. The outstandings against the Simla and Lahore Municipalities include Rs. 2,000 and Rs. 4,57,000 due on debentures and to the Bank of Bengal respectively; all the rest were taken from Government. The financial position of each indebted Municipality during the year under review was sound, the closing balance in every case being appreciably above the minimum prescribed by Government.

Revenue and Expenditure.—The total income and expenditure, exclusive of *Debt Head Transactions*, amounted to Rs. 49,33,000 and Rs. 52,55,000 against Rs. 49,39,000 and Rs. 51,92,000 respectively in the preceding year. The variations under the main heads are explained in the following paragraphs.

Realizations under Special Acts.—The chief sources of income under this head were—

(1) Cattle pounds (Rs. 22,000);

(2) Hackney Carriage licenses (Rs. 7,000); and

(3) Chaukidari tax (Rs. 6,000).

Head (2) shows a decrease of Rs. 10,000, which is due to the income in 1902-03 having been abnormally large in Delhi in consequence of the Darbar. The other heads exhibit no variation.

Revenue derived from Municipal property and powers apart from taxation.—The total revenue under this head aggregated Rs. 7,47,000 against Rs. 9,26,000, showing a decrease of Rs. 1,79,000, which is due to diminished receipts under (1) *Sale proceeds of lands, &c.* (Rs. 2,09,000), (2) *Conservancy receipts* (Rs. 3,000) and (3) *Fees from markets and slaughter-houses* (Rs. 3,000), partly counterbalanced by increased income from (4) *Rents of lands, &c.* (Rs. 10,000), (5) *Educational institutions* (Rs. 7,000), (6) *Bonded warehouses* (Rs. 9,000), (7) *Fines under the Municipal Act, &c.* (Rs. 6,000), and (8) *Interest on investments* (Rs. 5,000). The causes of the variations are—

(1) *Sale proceeds of lands, &c.*—The decrease of Rs. 2,09,000 occurred in the towns of Delhi (Rs. 1,79,000), Sangla (Rs. 16,000),

Amritsar (Rs. 9,000), Jalalpur (Rs. 7,000) and Lahore (Rs. 7,000), and is partly counterbalanced by an increase in the Hoshiarpur Municipality owing to the sale of their octroi office building.

(2) *Conservancy receipts.*—The receipts fell from Rs. 1,70,000 to Rs. 1,67,000, which is due to Rs. 12,000 on account of the sale proceeds of manure of the year under review having been recovered in advance by the Sialkot Municipality in 1902-03, partly counterbalanced by better sales of manure in Delhi, Lyallpur and Gujranwala, and by improved conservancy arrangements in Bhera.

(3) *Fees from markets and slaughter-houses.*—The falling off is due to abnormal realizations in Delhi in the previous year in connection with the Darbar.

(4) *Rents of lands, &c.*—The increase (Rs. 10,000) occurred chiefly in Lyallpur, partly counterbalanced by a decrease in Simla, due to falling off in realizations for the use of the Town Hall and to a reduction in the rents of stalls in the Market and Gunj.

(5) *Educational receipts.*—The increase (Rs. 7,000) is due to improved receipts in Jullundur, Ludhiana, Amritsar, Multan, Muzaffargarh and Dera Ghazi Khan, consequent mainly on an increase in the attendance at schools.

(6) *Bonded warehouse fees.*—The increase (Rs. 9,000) which occurred in Rawalpindi represents the income for 1903-04 as well as for 1902-03, the fees for the latter period having been realized after the close of that year.

(7) *Fines under the Municipal Act, &c.*—The major portion of the increase (Rs. 6,000) was realized in Lahore, Simla and Amritsar, which is due to closer attention to conservancy and other services and to an increase in the number of prosecutions for breaches of bye-laws.

(8) *Interest on investments.*—The increase of Rs. 5,000 is due to realization in the year under review of interest on investments for electric lights in Delhi.

Grants and Contributions.—The total grants and contributions received from (1) *Government*, (2) *Local Funds* and (3) *Other Sources* amounted to Rs. 1,75,000, Rs. 1,16,000 and Rs. 15,000 in 1903-04, against Rs. 1,55,000, Rs. 1,19,000 and Rs. 8,000 respectively in 1902-03. Nearly nine-tenths of the total amount, namely, Rs. 1,82,000 and Rs. 89,000, were grants for "Educational" and "Medical" purposes against Rs. 1,45,000 and Rs. 91,000 respectively in 1902-03. The increase under the former is due to a special grant of Rs. 37,000 from Government for the construction of a Boarding-house and Primary class room at Amritsar.

Miscellaneous.—The total revenue under the major head *Miscellaneous* aggregated Rs. 3,98,000, against Rs. 3,94,000 realized in 1902-03. The chief sources of income under this head are—(1) *Recoveries on account of services rendered to private individuals* (Rs. 42,000), (2) *Nazul income* (Rs. 48,000), (3) *Sales of water* (Rs. 96,000), (4) *Garden receipts* (Rs. 31,000), (5) *Sales of trees, grass, wood, &c.* (Rs. 57,000), (6) *Receipts from cattle and horse fairs* (Rs. 43,000), (7) *Refunds of amount drawn but not expended* (Rs. 17,000), and (8) *Miscellaneous* (Rs. 53,000). The receipts under the heads (1), (5) and (6) need no comment, as there is no

noticeable difference as compared with the figures for 1902-03. *Nazul income* fell from Rs. 73,000 to Rs. 48,000 in 1903-04 as the receipts for 1902-03 were exceptionally large in Delhi owing to the Darbar. Sales of water fetched Rs. 9,000 more as compared with the preceding year, the increase occurring in Simla (Rs. 6,000), Delhi (Rs. 4,000) and Ambala (Rs. 1,000), partly counterbalanced by a decrease of Rs. 2,000 in Lahore, which is attributed to the non-recovery of rates from those who fled from their houses on account of plague. The income from gardens was also better by Rs. 4,000 mainly in Delhi, Kasur and Amritsar. The "Miscellaneous income" amounted to Rs. 52,000 against Rs. 30,000 in the previous year, the increase having been contributed mainly by the Simla Municipality in the sale of stores to the extent of Rs. 23,000, and partly by Lahore due to the sale of unserviceable stores and recovery of law expenses. It is satisfactory to note that refunds of amounts drawn but not expended were reduced from Rs. 26,000 to Rs. 17,000, the result of keeping the drawings down, as far as possible, to actual requirements.

The chief variations between the expenditure (Rs. 52,55,000) exclusive of debt transactions during the year under review and that incurred in 1902-03 (Rs. 51,92,000) are accounted for below.

General administration and collection charges.—The charges under this head amounted to Rs. 7,08,000 against Rs. 6,93,000 in the preceding year. The excess of Rs. 15,000 falls under the heads (1) Office Establishment, Inspection, &c. (Rs. 5,000), and (2) Refunds other than octroi (Rs. 17,000), partly neutralized by a decrease in expenditure under the heads (3) Survey of land (Rs. 2,000), (4) Refunds of octroi (Rs. 3,000), and (5) Pensions and Gratuities (Rs. 2,000). The increase under (1) is chiefly due to the Delhi Municipality having invested in a printing press and to the entertainment of an Engineer Secretary for the Simla Municipal Committee on a higher pay. The increase under (2) is due to the amount of Rs. 17,000 which was subscribed towards the cost of a new school at Jullundur and deposited with the Municipal Committee in 1902-03 having, at the wish of the subscribers, been transferred during the year under review to the credit of the Jullundur Victoria Memorial Hospital Society. This transfer will not, however, affect the original object for which the funds were raised, as the building in which the hospital was located will be available for the school.

Public Safety.—The expenditure charged under this head amounted to Rs. 7,14,000 against Rs. 7,15,000 in the previous year. The decrease of Rs. 1,000 is due to diminished expenditure under the heads "Fire" (Rs. 3,000) mainly in the towns of Simla, Amritsar and Batala, and "Lighting" (Rs. 4,000) owing to the installation of electric lighting in Delhi in the previous year, partly counterbalanced by an increase of Rs. 6,000 under Police, due to the construction of Police buildings in the towns of Lahore, Amritsar, Fazilka and Multan.

Public Health and Convenience.—The expenditure incurred on this account amounted to Rs. 27,90,000 against Rs. 27,36,000, showing an increase of Rs. 54,000, which occurs chiefly under the heads (1) Water-supply (Rs. 2,21,000), (2) Hospitals and Dispensaries (Rs. 38,000), (3) Public Works Establishment (Rs. 4,000), and (4) Stores (Rs. 19,000), partly counterbalanced by decreases under (5) Drainage (Rs. 1,46,000), (6) Conservancy (Rs. 2,000), (7) Markets and Slaughter-houses (Rs. 15,000), (8) Arboriculture (Rs. 9,000), and (9) Roads (Rs. 56,000). The excess under (1) is chiefly due to the construction of water works at Amritsar and to larger outlay in Simla on the maintenance of the water-supply. The construction of the Victoria Jubilee Hospital at Amritsar and large additions to the hospital at Delhi account for the increase under (2). The increase under (3) is chiefly due to the appointment of an Engineer on a higher salary by the Lahore Municipal Committee, and

that under (4) to a larger outlay by the Simla Municipality. The decrease in drainage charges occurs in the case of the Municipalities of Delhi, Ambala, Simla, Lyallpur and Chunian and is due to abnormal expenditure in the previous year. The charges on account of Markets and Slaughter-houses and Arboriculture exhibit a decrease during the year under review owing to inflated expenditure in 1902-03 in Delhi on account of the Darbar. The decrease under "Roads" is spread over several Municipalities, but the major portion of it occurred in Delhi and Amritsar, due in the case of the former to heavy expenditure in connection with the Darbar in 1902-03 and in the latter to the stoppage of work to permit of pipe-laying in the city during the year under review.

Public Instruction.—The expenditure amounted to Rs. 6,15,000 against Rs. 5,95,000 in the previous year. The increase of Rs. 20,000 is mainly due to the construction of a school building at Multan for Hindu Girls, a Boarding-house at Pind Dadan Khan and to improvements to school buildings at Amritsar and Ludhiana, and partly to the refurnishing of certain schools.

The total number of scholars on the rolls of the secondary schools managed by Municipal Boards on the 31st March last was 21,592, or 215 less than in the preceding year. The number in the secondary and primary stages of instruction was 7,507 and 14,085 against 7,607 and 14,200 respectively in the previous year.

Contributions.—The total expenditure charged under this head rose from Rs. 1,27,000 in 1902-03 to Rs. 1,34,000 during 1903-04. The increase of Rs. 7,000 is chiefly due to the payment by certain Municipalities of arrear contributions to Government on account of localized Provincial properties.

Miscellaneous.—The total Miscellaneous expenditure amounted to Rs. 2,92,000 against Rs. 3,25,000 in the previous year, showing a decrease of Rs. 33,000, mainly under the heads (1) Other Miscellaneous charges (Rs. 50,000), which is spread over almost all the Municipalities and represents special expenditure incurred in 1902-03 in connection with the Coronation celebrations, (2) Maintenance of lepers (Rs. 6,000) owing to the transfer from the 1st July 1903 of the asylum at Tarn Taran to the Mission to Lepers in the East, (3) Actual cost of work done for private individuals (Rs. 6,000), and (4) Law expenses (Rs. 2,000), partly counterbalanced by an increase of Rs. 5,000 under Nazul charges and Rs. 26,000 under Interest. The latter increase is due to fresh loans raised.

PART IV.—GENERAL.

Plague was again prevalent in almost all the Municipal towns of the Delhi, Jullundur and Lahore Divisions; in the Multan Division, beyond a few imported cases in Multan itself, Maghiana was the only Municipality attacked, and there the ravages of the disease were severe. It increased largely in the Rawalpindi Division, and its appearance in the town of Rawalpindi created a panic which resulted in the flight of the greater part of the population. The Lieutenant-Governor regrets to observe that on the outbreak of the disease in Bhera most of the members of the Committee deserted the place, and the few that remained rendered no assistance. Of the larger towns Amritsar and Lahore both suffered considerably.

Cholera appeared sporadically, and there were 91 cases in Delhi. A few cases of small-pox occurred; otherwise the health of the towns has been good during the year past.

An outbreak of fire occurred in a cotton factory at Hissar and a severe fire at Sohna, while in Amritsar losses estimated at Rs. 23,410 are reported to have occurred from the same cause; in Dharmsala a serious fire, resulting in the destruction of many valuable records, occurred in the District Offices.

Flood water from the Ravi caused some damage to the Lahore Water Works, and interrupted the supply for some days. Steps have since been taken to protect the plant from pollution by flood water.

In the year under report the Kalka-Simla Railway was opened for traffic, and good progress made with the Agra-Delhi Chord and McLeodganj to Ludhiana (Southern Punjab) Railway.

During the year the foundation stone of the Victoria Zenana Hospital at Delhi was laid and the new Walker Hospital at Simla opened. The Ripon Hospital has continued to do good work, and the erection of a Contagious Diseases Hospital at Simla for Europeans and Eurasians has also been sanctioned. A site has been acquired at Jullundur for the erection of the Victoria Memorial Hospital, to which Government has contributed a grant-in-aid, and the work of construction will shortly commence. The new Jubilee Hospital at Amritsar was nearly completed.

Slight progress has been made during the year with the Intra-mural Drainage Scheme of Delhi City. Sanction to the raising of a loan of 4 lakhs in the open market has now been obtained, and progress should be more rapid in the future. A revision of a similar scheme in Ambala is being undertaken as the original estimates were beyond the financial capacity of the Municipality. Progress has been made with the Simla sewage extensions, and the execution of the works proposed by the Simla Extension Committee has been continued, about Rs. 72,000 having been expended in the year under report. Drainage projects are under consideration at Hansi, Jhelum, Hazro, Pind Dadan Khan and Bhera, while those prepared for Rawalpindi and Gujrat have received the sanction of Government. The Lahore Conservancy Tramway Project has not progressed, the work being impeded by a change in the selection of a site.

The execution of the Amritsar Water Works Scheme was considerably advanced during the year, and the provision of extra wells and other improvements to the existing water supplies have been undertaken in Lahore and Ambala, while progress has been made in Dharmsala, and schemes for the improvement of the supply are under consideration in Khushab and Pind Dadan Khan.

The Lyallpur Drainage and Water Works were completed at a cost of nearly 2 lakhs, the drainage of Chiniot completed, and that of Toba Tek Singh and Gojra—together with a water-supply—put in hand.

Water Works and Drainage Projects were sanctioned for Sargodha, and progress has been made with the water-supply scheme of Mianwali.

A new marble pedestal and chain fence was provided for Queen Victoria's statue in the Kaisari Bagh at Amritsar. A steam fire engine and two Washington kerosine oil incandescent lamps have been presented to the latter city by various members of the Committee.

ORDER.—Ordered that copies of the foregoing remarks be forwarded to all Commissioners and Deputy Commissioners in the Punjab, the Secretary to Government, Punjab, Public Works Department, and be submitted to the Government of India in the Home Department.

Also that the remarks and a translation of them be published in the *Punjab Government Gazette*, English and Urdu versions respectively, and that copies of the Urdu translation be supplied to Deputy Commissioners for the information of Municipal Committees.

By order of His Honour the Lieutenant-Governor,

A. B. KETTLEWELL,

Judicial and Genl. Secy. to Govt., Punjab.

Punjab Government Press, Lahore—2-12-04—265.

PARTICULARS.
